L THERMOMETER
INSTRUCTION MANUAL

1. Press the POWER Button to turn on the device, it will auto self-diagnosis.
2. After cleaning the probe, please wait for 2 minutes at least to do a measurement.
3. Wait at least thirty minutes after exercising, bathing or eating before taking a measurement.
4. If the subject's body temperature is lower than the room temperature, a false reading may occur.
5. To ensure the best performance of the device, please follow the Product Specification "Storage conditions".
6. Dispose of the device and battery according to your local regulatory or environmental protection policy.
7. Please do not remove or replace the battery while the device is on.
8. For maximal performance of the device, we recommend a regular checkup and device calibration every two years.
9. The memories might be erased after replacing the battery.
10. Do not touch the probe.
11. The device is water resistant, however, water can cause damage to internal components, it should not be immersed in water.
12. Do not immerse the unit in water or liquid of any kind. The unit is not water proof.
13. Do not use the device in the presence of flammable substances.
14. Do not let thermometer come into contact with any thinner or chemical solvents.
15. Do not submerge or expose the device to water.
16. Do not use if the display malfunctions or it operates irregularly.
17. Do not put this unit in dishwasher.
18. If the thermometer has been stored at below-freezing temperatures, allow the thermometer to warm naturally to room temperature before using.
19. The device is not intended for children.
20. Do not drop or crush the device. It is not shock proof.
21. The device could be send back to the manufacturer for recycling or proper disposal if the device is not functioning properly.
22. Performance of the device may be degraded if operated or stored outside stated temperature range.

PRODUCT SPECIFICATION

Measuring Site: Forehead
Display Temperature Range: 71°F~109°F
Accuracy: ±0.1°F
Display Resolution: 0.1°F
Memory: 32 memories
NFC: Yes
Operational Environment: 41°F~104°F(5°C~40°C), noncondensing
Storage Environment: -4°F~122°F (-20°C~50°C), noncondensing
Power Source: CR2032 battery x 1 pcs
Battery Life: 5000 measurements
Auto Shut Off: After 15 minutes of inactivity
Dimensions: 2.95” x 0.9” x 0.9” (75 x 23 x 23 mm)
Weight: 1.8 oz (51 g)
Warranty: 1 year

SAFETY INSTRUCTIONS

1. Do not drop or scratch the probe. It may result in incorrect measurements.
2. Do not use the device when flammable materials are around.
3. Do not immerse the device in water or liquid of any kind.
4. Some infections may cause a rise in skin temperature which can consequently lead to incorrect readings.
5. Taking a measurement after skin has been exposed to extreme condition such as direct sun exposure, extreme cold or changes in air pressure may result in incorrect readings.
6. Do not use the device if malfunctions appear or if it operates abnormally.
7. Do not disassemble the device except when replacing the battery.
8. Do not put this unit in dishwasher.
9. If the thermometer has been stored at below-freezing temperatures, allow the thermometer to warm naturally to room temperature before using.
10. Do not use the device in the presence of flammable substances.
11. Do not touch the probe.
12. The device is water resistant, however, water can cause damage to internal components, it should not be immersed in water.
13. Do not drop or crush the device. It is not shock proof.
14. Do not submerge or expose the device to water.
15. Do not use if the display malfunctions or it operates irregularly.
16. Do not put this unit in dishwasher.
17. Do not use the device if malfunctions appear or if it operates abnormally.
18. If the thermometer has been stored at below-freezing temperatures, allow the thermometer to warm naturally to room temperature before using.
19. The device must be charged according to the manufacturer's instructions before it is to be used. The device and battery must be charged for a minimum of 4 hours prior to first use.
20. Only use the thermometer and its battery as instructed or as per the manufacturer's instructions. If the device or battery are not charged as instructed, this may affect the performance of the device.

ABOUT BODY TEMPERATURE

The ambient temperature is out of the Operation Environment range. Please wait a few minutes and measure again.

WARRANTY INFORMATION

Warranty: 1 year (Parts and labor)
Expiration: please check the label on the device.

LOT NUMBER INFORMATION

LOT NUMBER(LOT NUMBER)1012/08/16 on the device label means the year and month of manufacture. For example, "1012" denotes the device was manufactured in April, 2012. If you have any questions, please contact your local agents or distributors.
