FOR IMMEDIATE RELEASE

Commercial Jet's Accelerated Growth Leads to 100 New Job Openings

Dothan, Alabama – February 1st, 2016 – Dothan-based Commercial Jet Services LLC, a leading provider of heavy Maintenance, Repair & Overhaul (MRO) and modification services on commercial aircraft, continues to grow at an exponential rate.

To gear up for additional aircraft maintenance and modification business in the coming months, Commercial Jet is looking to increase its workforce immediately by 100 aircraft maintenance and structures technicians of all skills and experience levels, including leads, supervisors and project managers.

"We are very pleased with the growth we have experienced and excited with what lies ahead of us" comments the company's General Manager, Keith Johnson. "Increasing our skilled aircraft technician staff levels now, will allow us to prepare for the business that's heading our way," he concludes.

Commercial Jet established its CJet Academy in 2014 to train entry-level structures technicians. "The training school approach has been very successful" said David Sandri, CEO. "We are now developing plans to expand the academy's training program to include other skills."

Upon graduation from CJet Academy, graduates will receive On-the-Job Training (OJT) with Commercial Jet's skilled and experienced technicians.

Commercial Jet has developed a well-defined career path for its aircraft technicians seeking to grow within the company.

Applicants are encouraged to apply on-line at www.commercialjet.com/careers.

About Commercial Jet

Commercial Jet is a leading independent FAA approved and EASA recognized provider of line and heavy maintenance, repair & overhaul (MRO) solutions provider for passenger, cargo and military aircraft. In business for over two-and-a-half decades, Commercial Jet's capability includes letter checks for Boeing and Airbus aircraft. The company continues to expand into the Bombardier aircraft market and has over half-a-million square feet in repair facilities located in Miami, Florida (MIA) and Dothan, Alabama (DHN).
