
About Gas Land, Inc.

We Engineer, Design and Fabricate State-of-the-art Gas Separation Systems, including Membrane and Cryogenic Nitrogen Generators. From Design to Delivery, Gas Land takes great pride in the fabrication of our Nitrogen Systems to our customer's exact specifications.

Gas Land's wide range of products and services are certain to satisfy the most demanding project specifications and requirements while providing the most robust performing systems with the lowest cost of ownership in the industry.

For nearly two decades, Gas Land has delivered the very best in Quality, Service, Performance and Support to LNG Plants worldwide.

FOR THE VERY BEST –
CHOOSE GAS LAND, INC.

OUR CUSTOMERS

ExxonMobil	Bechtel	BG Group
CB&I	Cheniere	Marathon Oil
ConocoPhillips	Shell	Aker/IHI
Petrofac	Petrotrin	Saudi Aramco
Samsung	Chevron	WorleyParsons

NOTABLE PROJECTS

*Angola LNG
Adriatic LNG
Atlantic LNG
Australia Pacific LNG
Darwin LNG
Egyptian LNG
Equatorial Guinea LNG
Gladstone LNG
Sabine Pass LNG
Queensland LNG
Wheatstone LNG*

Performance Stands Out."*

Products & Services

- Membrane Nitrogen Generators
- Liquid Nitrogen Storage Vessels
- Cryogenic Storage Vessels
- Ethylene Drums / ISO Containers
- Vaporization Systems
- Portable Nitrogen Generators
- Air Separation Units
- Vacuum Insulated Piping
- Membrane Separators
- ASME Pressure Vessels
- Air Compressors & Dryers
- Specialty Carbon
- OEM Instrumentation

Design & Consultancy

- CAPEX/OPEX
- Review of Existing Installations
- Upgrades & Expansions
- Process Control Strategy
- FEED Studies
- P&ID Development
- Third Party Inspection
- Documentation
- Commissioning & Training
- Performance Optimization

Quality Policy

Gas Land's unwavering commitment to Quality & Integrity is integral to every decision we make. We strive to consistently exceed our Clients & Partners highest expectations for Quality, Reliability & Service.

Our Corporate Mission is 100% Conformance to our Customers Specifications & Project Requirements.

Fabrication & Testing Services

- Skid & Piping Fabrication
- Control Panels and Wiring
- PLC & HMI Controls
- Factory Acceptance Testing
- Site Acceptance Testing
