

## Support Services

**Spectator Services:** Be a friendly face to provide information to families, athletes, Honored Guests and spectators.

**Delegation Services:** Work with each state program to answer questions about housing, transportation, meals, special events and provide support for any additional needs.

**Awards Team:** Make the athlete's successes even sweeter by guiding them through medal ceremonies that showcase their efforts in competitions throughout the Games.

**Media Team:** Greet the media and credentialed photographers and support our social media teams at each of the venues. Connect the media with official Games spokespeople and guide them to reserved media areas at the event site.

**IT Team:** Provide desktop support at each venue, troubleshoot network issues and manage a fleet of Windows 10 PCs, copiers and printers.

**Volunteers:** Check in volunteers at each venue, answer questions, conduct orientation sessions, recruit, communicate via email and distribute volunteer uniforms.

**Emergency Management Team/Security Teams:** Document incident action plans, perform risk management tasks and coordinate with law enforcement, private security teams, medical and other agencies.

**Medical Teams:** Each venue requires trained medical teams to support public medical stations and provide assistance to athletes on the field of play.

**Logistics/Warehouse:** Get your hands dirty while managing the movement of gear, directing recycling/trash at each venue, tracking what needs to be replenished at each venue and working closely with the transportation team to get it there on time.

**Transportation:** Manage a rental car fleet, bus transportation and movement of freight to each venue. This team will need friendly people to communicate transportation needs at each venue and provide drivers to transport VIPs in rental SUVs and vans.
