If I Built a Car

Calling all artists, engineers, and future car designers! One of our favorite books at World of Speed is “If I Built a Car” by Chris Van Dusen. Professional race car driver Cindi Lux recently read this book for Otto's Story time Garage. In the book, Jack, creates his ideal car complete with a couch, snack bar, pool, and innovative safety features. The car also has hydroplane and flight capabilities, as well as an ingenious idea for a self-driving robot. If your car could do anything, what would it do?

World of Speed would love to see your artwork! Take a picture and tag us @worldofspeedUSA

- Imagine! If you could design a car to do anything, what would it do?

- What features would your car have?

- What does your dream car look like? What color(s) and shape is your car?

- What safety features would your car have?

- How would your car be environmentally friendly?
