**The Housing Credit is a proven solution to help address the affordable housing crisis.**

The Housing Credit is our nation's most successful tool for encouraging private investment in affordable rental housing. It has financed nearly 3 million apartments since 1986, providing over 6.5 million low-income families, seniors, veterans, and people with disabilities homes they can afford. Without the Housing Credit, it would be financially infeasible for the private sector to build affordable homes for the families that need them most.

However, viable and sorely needed Housing Credit developments are turned down each year because Housing Credit resources fall far short of the demand. On average, state Housing Credit allocating agencies receive applications requesting more than three times their available authority. With more Housing Credit resources, we could make a meaningful step towards addressing our nation's vast and growing affordable housing needs.

## THE AFFORDABLE HOUSING NEEDS THAT STILL REMAIN

Though the Housing Credit has had a tremendous impact, much more affordable housing is still needed.

Throughout North Carolina,  
**335,984 HOUSEHOLDS**

pay more than half of their income monthly on rent, leaving too little for other expenses like health care, transportation and nutritious food.

And in North Carolina, a minimum wage worker has to work  
**79 HOURS PER WEEK**  
in order to afford a modest two-bedroom apartment.
