The Housing Credit is a proven solution to help address the affordable housing crisis.

The Housing Credit is our nation's most successful tool for encouraging private investment in affordable rental housing. It has financed over 3 million apartments nationwide since 1986, providing roughly 7 million low-income families, seniors, veterans, and people with disabilities homes they can afford.

Without the Housing Credit, it would be financially infeasible for the private sector to build affordable homes for the families that need them most.

The ACTION Campaign calls on Congress to:

- **Protect** the Housing Credit in tax reform.
- **Preserve** multifamily Housing Bonds, which provide critical financing to roughly 40 percent of Housing Credit developments.
- **Expand** the Housing Credit to make a meaningful dent in our nation's severe shortage of affordable housing.
- **Strengthen** the Housing Credit by making it more streamlined and flexible.

THE NEED FOR AFFORDABLE HOUSING

Though the Housing Credit has had a tremendous impact in Montana, much more affordable housing is still needed to meet the growing demand.

In Montana,

28,661 households

pay more than half of their monthly income on rent, leaving too little for other expenses like health care, transportation and nutritious food.

And in Montana, a minimum wage worker has to work

69 hours per week

in order to afford a modest one-bedroom apartment.
