The Low-Income Housing Tax Credit’s Impact in New Mexico’s 1st District

The Housing Credit’s Benefits for Low-Income Families & The Economy

1986 – 2017

- 8,432 homes developed or preserved in NM-01
- 9,528 jobs supported for one year
- $358 million tax revenue generated
- $908 million wages & business income generated

The Need for Affordable Housing

The Housing Credit, combined with other key resources, has had a tremendous impact in New Mexico. However, much more affordable housing is still needed to meet the growing demand.

- 61,770 renter households in New Mexico pay more than half of their monthly income on rent, leaving too little for other expenses like health care, transportation and nutritious food.

In order to afford a modest one-bedroom apartment, a minimum wage worker in New Mexico has to work 71 hours per week.

Addressing Our Nation’s Severe Shortage of Affordable Housing

- 2,522 additional affordable homes could be built in New Mexico over the next ten years through a 50 percent increase in Housing Credit allocation authority.

The Housing Credit is a proven solution to help address the affordable housing crisis.

The Housing Credit is our nation’s most successful tool for encouraging private investment in affordable rental housing. It has financed over 3 million apartments nationwide since 1986, providing about 7.4 million low-income families, seniors, veterans, and people with disabilities homes they can afford.

Without the Housing Credit, it would be financially infeasible for the private sector to build affordable homes for the families that need them most.

The ACTION Campaign calls on Congress to:

- Expand the Housing Credit to make a meaningful dent in our nation’s severe shortage of affordable housing.
- Strengthen the Housing Credit by making it more streamlined and flexible.
- Enhance multifamily Housing Bonds, which provide critical financing to about 50 percent of Housing Credit developments.
