The Housing Credit is a proven solution to help address the affordable housing crisis.

The Low-Income Housing Tax Credit (Housing Credit) is our nation’s most successful tool for encouraging private investment in affordable rental housing. It has financed 3.3 million homes nationwide since 1986, providing roughly 8 million low-income households with homes they can afford.

Without the Housing Credit, it would be financially infeasible for the private sector to build affordable homes for the families that need them most.

The ACTION Campaign calls on Congress to:

• Expand the Housing Credit to make a meaningful dent in our nation’s severe shortage of affordable housing.

• Strengthen the Housing Credit by making it more streamlined and flexible.

• Enhance multifamily Housing Bonds, which provide critical financing to about 50 percent of Housing Credit developments.

THE NEED FOR AFFORDABLE HOUSING

The Housing Credit, combined with other key resources, has had a tremendous impact in Kentucky. However, much more affordable housing is still needed to meet the growing demand.

120,561 renter households in Kentucky pay more than half of their monthly income on rent, leaving too little for other expenses like health care, transportation and nutritious food

In order to afford a modest one-bedroom apartment, a minimum wage worker in Kentucky has to work 66 hours per week

ADDRESSING OUR NATION’S SEVERE SHORTAGE OF AFFORDABLE HOUSING

5,317 additional affordable homes could be built in Kentucky by expanding the Housing Credit allocation authority as proposed in the Affordable Housing Credit Improvement Act.
