The ACTION Campaign represents over 2,300 organizations and businesses working to address our nation’s severe shortage of affordable rental housing by supporting the Low-Income Housing Tax Credit.

www.rentalhousingaction.org

The Low-Income Housing Tax Credit (Housing Credit) is our nation’s most successful tool for encouraging private investment in affordable rental housing. It has financed 3.3 million homes nationwide since 1986, providing roughly 8 million low-income households with homes they can afford. Without the Housing Credit, it would be financially infeasible for the private sector to build affordable homes for the families that need them most.

The ACTION Campaign calls on Congress to:

• Expand the Housing Credit to make a meaningful dent in our nation’s severe shortage of affordable housing.

• Strengthen the Housing Credit by making it more streamlined and flexible.

• Enhance multifamily Housing Bonds, which provide critical financing to about 50 percent of Housing Credit developments.

244,296 renter households in Washington pay more than half of their monthly income on rent, leaving too little for other expenses like health care, transportation and nutritious food.

In order to afford a modest one-bedroom apartment, a minimum wage worker in Washington has to work 73 hours per week.

5,813 homes developed or preserved in WA-08  29,413 jobs supported for one year

$1.2 billion tax revenue generated  $3.3 billion wages & business income generated

The Housing Credit is a proven solution to help address the affordable housing crisis.

6,458 additional affordable homes could be built in Washington by expanding the Housing Credit allocation authority as proposed in the Affordable Housing Credit Improvement Act.

THE NEED FOR AFFORDABLE HOUSING

The Housing Credit, combined with other key resources, has had a tremendous impact in Washington. However, much more affordable housing is still needed to meet the growing demand.
