## SIZING APPARATUS

CUT OUT ALONG DOTTED LINE, INCLUDING THE INNER LINE BETWEEN THE 2 ARROWS. SLIDE THE POINTED END THROUGH THE INNER SLIT, PUT YOUR FINGER INSIDE THE LOOP, AND PULL UNTIL TIGHTENED.

MAKE SURE YOUR HAND IS NOT COLD, THIS WILL RESULT IN YOUR RING BEING TOO TIGHT.

HINT : It helps to stick tape underneath to make it more stiff before cutting

## SIZE MATCHING CHART

USE A EXISTING RING OF YOURS THAT FITS YOUR FINGER.

PLACE OVER THE CIRCLES UNTIL YOU FIND THE ONE THAT IS CLOSEST IN SIZE TO THE INSIDE CIRCLE ON YOUR RING.
