it is a unique point in modern history as a state that perceives itself as embodying the ideals of freedom and democracy, is confronted with the stripping of these. what does it mean to truly be free? perhaps only when we are challenged with the alternative will we have a true answer.

each day is a choice. we decide where we place the power of our emotions. we decide what we listen to. we decide how we spend our money. we decide how we spend our time. we decide how we treat others.

we are faced with a challenge. while it will not be easy, there is an opposite and equal reaction to every action.

choose your force. act on it.
