

Fun and Educational Activities Guided by the City of Memphis Storm Water Department!

It's our job!

Did you know we are required by our permit to raise Storm Water Awareness? Classroom activities are beneficial for teachers and the City! Materials are provided and we can giveaway school supplies. But these services are only available to schools within City Limits!

Watershed Model!

A large interactive model that shows how pollution is transferred to the watershed by rain for all grades

Schoolyard Topography!

Students are guided to draw age-appropriate topography of their schoolyard and learn the path of water flow. Also can include...

Scientist for a Day!

In-class water testing for grades 5 and up

Story Time!

Water pollution themed children's books read aloud for Pre-K to 2nd grade

Schoolyard cleanup!

Storm drain marking!

Power Point Presentation!

A presentation showing storm water pollution sources and causes for grades 1 and up

Field trips!

Field trips guided to waterways for chemical and biological water testing for grades 6 and up
