

## ROY G BIV

### Verse 1

I was walkin' through the woods, I came upon some pines  
Looked like a good place to hide so I, crawled down inside  
As I was in my hiding place I met a man from outer space he said  
"Don't be afraid I'm just here to save the human race"

### Verse 2

I said "sir what is your name?" he did not reply  
I could tell that he was confused by the look in his eyes  
I said "hey where you headed, where did you come from?"  
He pointed up to the sky and started bangin' on his drum, and he said...

### Chorus

As I was going to St. Ives I met a, met a man with seven wives  
Each wife had seven cats, each cat had seven lives  
As I was going to St. Ives I met a, met a man with seven wives  
Each wife had seven cats, each cat had seven lives

### Verse 3

I said "sir what is your name?" he did not reply  
I could tell that he was confused by the look in his eyes  
I said "hey where you headed, where did you come from?"  
He pointed up to the sky and started bangin' on his drum, and he said...

### Chorus

### Verse 4

I said "I don't understand, could you be a little clearer?"  
He said "I am you are me you seem to be on the other side of the mirror"

### Chorus

Each life had seven squares  
Each square had seven drops  
Each drop had seven colors  
Now red means go and  
Green means green means stop

---

## Wake Up!

### Verse 1

How many people gonna die today, and how many innocent are getting locked away  
You wanna talk about freedom, well freedom's just a state of mind

And the beginning and the end well their just a place in time  
And I know deep down inside you wanna go and change the world, you know you can if  
you just get to it  
Its time to realize we only have a short time and people I hope we don't blow it

### **Chorus**

Wake up, stand up and fight, people come together its time to unite  
I said wake up, stand up and fight, put your fists in the air its time to unite  
It's like fire, burning em down  
It's like fire, its blowing through your town  
It's like fire, once it spreads you can't stop, if enough speak out it goes straight to  
the top  
Its like fire and we're burning em down, it won't be long until their walls come  
tumbling to the ground its like

### **Verse 2**

You wanna talk about freedom, and your reasons for believing  
Everything you see on tv but believe me their deceiving  
While the rest of the world looks at us with hateful eyes, we sit back on our lazy boys  
and act surprised  
But you and I know, we're better than that , it's time to change positivity its time to react  
and fight back  
We can't let the government win, but if you don't stand up then please tell me who will

### **Chorus (x2)**

---

## **Consumer**

### **Verse 1**

Midnight at Wal-Mart the parking is better than noon  
There's late-night consumers still looking for goods to consume  
The stockers are stocking the shelves, with ten thousand hats for your head  
And the friendly old people that greet us, they have all long, all long since gone to bed

### **Verse 2**

The wheel on my cart rattles loudly down aisle ninety-three  
Another late-night shopper smiles kindly and says "hi" to me  
Out of the corner of my eye I spy, a deal that's to good to believe  
It's a waffle maker slash fondue set, and its buy one, buy one get one free

### **Chorus**

The corporate super center killed the mom and pop stores downtown  
Encouraging consumers with every sight and every sound  
Blurring the line between need and want in the greediest way

But the difference between need and want my friends is like the difference, like  
the difference between night and day, oh night and day, night and day, oh night  
and day

### **Verse 3**

I exit the aisle by cosmetics and what do I see?  
That yellow smiley face is still smiling and staring at me  
He follows me wherever I go, just giving me that old evil eye  
And to the mastermind behind that which is Wal-Mart, before I shop at your store again,  
I think I'd rather die! I think I'd rather die. I think I'd rather die. I think I'd rather die.

### **Chorus**

---

## **Home Sweet Hohm**

### **Verse 1**

Life in the city's movin' way to fast time to kick off your shoes and feel the bluegrass  
Movin' to the country cuz I wanna be free cuz livin' in the city's like livin' off key

The dirty path is better than the hard concrete you can stop and get a smile from  
everybody that you meet  
Feel the energy rise as the sun goes down on the trans-cosmic tribadellic playground

### **Chorus**

I wanna be back in Harmony, I wanna be back with my family  
I wanna give you all a hug and say "welcome home" spread the love that's in  
your heart and you'll never be alone

### **Verse 2**

Put on your funky hat and a pair of groovy pants, we're goin' on a walkabout to do a little  
dance

Up to the stage getting' ready for the show, we're off to see the wizard spread the love  
and watch it grow

### **Chorus**

So here's to all the fairies and the pretty butterflies, and the old-school hippies with the  
trippy tie-dyes  
Here's to safe journeys wherever you may roam, everybody in the park say it's good to  
be home!

### **Chorus x2**

---

## Get Down

### Verse 1

Well I'm sittin up in a tree now but I don't recall making the climb,  
I look around at all the treetops and I try to get a grip on my mind  
And as I formulate a plan to get down to land, grab a lower limb in the palm of my hand  
And I find my mind circle back the way I began, tryin to figure out just when where why

### Chorus

How did I get up here in the first place,  
Tell me how did I get up here in the first place, the first place, won't you tell me  
how

### Verse 2

And tell me how, did I get down to the valley of the shadow of death  
And I've found, no matter how hard I try, I keep sliding back down  
And won't you tell me bout the fucking golf shoes, because I can't get no footing at all  
And every time I think I'm getting close to to the top I just seem to slip and fall and wont  
you tell me now

### Chorus

### Verse 3

People talk about creation without relation, never solve the equation for man behaving,  
Quick to believe it but never seeing, life for what it is won't you take the time and say

### Chorus

wont you tell me how, (won't you tell me how) won't you tell me how, (won't you  
tell me how) x2  
We Get Down

---

## Down The Road

### Verse 1

I ain't never been down to Mexico, and I never strayed far from home  
Never gonna find what Im lookin' for, no matter how far I roam  
With my head up in the clouds I can see for miles and Im never coming down  
Till the day when this all goes away and the pain it turns into smiles

### Chorus

And Im gonna roll down the road, roll on down the road  
Until the wind brings me back home, I'm gonna roll on down the road  
And Im gonna roll down the road, roll on down the road  
Until the wind brings me back home, I'm gonna roll on down the road

**Verse 2**

I got 16 bucks and a tank of gas, I guess I'll be on my way  
Try to find a better way to live this life, and be free from all this hate  
But the farther I go the closer I come, to the fact that its our fate  
And I pray someday I'll be carried away, take to another place

**Chorus****Verse 3 (repeat verse 1)****Chorus**

---

**This Life****Verse 1**

I broke both the laces on both my shoes, and I just drank my last 2 shots of booze  
And I ain't got enough money to pay my rent (pay my rent)  
Well the Federali's they took my truck and now I'm down to my last 20 bucks  
And I just cant take it anymore

**Chorus**

Well I know, this life can get you down, down, down  
So hard to get your feet on the ground, oh lord  
And I try, I try to just get by, by, by  
But I just can't take it anymore

**Verse 2**

Well I met Chuck Norris in the alleyway, he punched me in the face and he ran away  
Picked up my dog and threw him off a bridge (off a bridge)  
I picked myself up and I kept on going, but I lost my coat and now and its snowin  
And I just cant take it anymore

**Chorus****Verse 3**

I smoked my last bowl and now its gone, I guess I'll have to scrape the resin out from  
my bong  
And just sit my ass on the couch and just try to get high  
Well I try to light my lighter but it wont work, tried to light it with my toaster but my fingers  
burnt  
And now I Just can't take it anymore

**Chorus (x2)**

---

## **Outlaw**

### **Verse 1**

My brother was a banker, with three kids and a wife  
My father was a farmer, he worked all day and night  
My mother rang the dinner bell late Sunday afternoon  
All three died beside my bride under the desert moon

### **Chorus**

And I said, Oh no no no I can't go back  
And I said, Oh no no no now I can't go back

### **Verse 2**

Ten men rode up to the farm and they shot them one by one  
They took from me my family, four bullets from a gun  
I met them at the border oh now I've been on the run  
Cuz I shot nine men that I didn't know and then I shot the sheriffs son

### **Chorus**

### **Verse 3**

Past the rocky mountains and across the barren land  
I rode into a ghost town, six gun in my hand  
The sheriff's got my number now his posse's closing in  
I'm ate to meet the gallows and my time is running thin

### **Chorus**

### **Verse 4**

I stand under the red sky, the sheriff's horse rides in  
He stands ten paces from my face my race is at an end  
I stare at his stare back at me our fates it seems are bound  
One gunshot echoes through the land but two men hit the ground

### **Chorus**

---

## **Samson**

### **Verse 1**

What you are about to witness may startle you  
It would not have been possible otherwise, to sufficiently emphasize  
The growing threat of the new drug menace  
Which has been destroying the youth of America at an alarming increasing number  
Marijuana is that drug  
A violent narcotic, an unspeakable scourge

The real public enemy number one

**Chorus**

I wanna talk to Samson  
Wont you fly me to the moon  
Yeah I wanna talk to Samson  
Wont you fly me to the moon

**Verse 2**

Its first effect is sudden violent uncontrollable laughter  
Next comes the dangerous hallucinations  
Space expands, time slows down  
And almost stands, completely... still  
Fixed ideas come next, conjuring up monstrous extravagancies  
The total inability to direct thought  
The loss of all power to resist physical emotion  
Leading to acts of shocking violence  
And ending often in complete, Insanity

**Chorus / Instrumental / Chorus**

---

**Fast Eddie**

**Verse 1**

Well that old Fast Eddie McClintock, well he won't get out of bed  
Likes to drink his coffee black, but he likes his Johnny Red  
The day has come, the race to run, white rabbit sets the pace,  
Fast Eddie's gonna keep it slow cause, slow and steady wins the race

**Verse 2**

Grandma's on the kitchen table making ketchup pie  
Grandpa's on the front porch with a gallon jug of shine,  
Don't get into a cage match with a seven foot raccoon,  
And Don't let grandma and grandpa pick their, pick their own mushrooms

**Verse 3**

Don't try to find a point or any meaning to this song,  
You can guess as to the reason, you can guess but you'll be wrong,  
We're just a puddle full of Useful mass, and things that you should know  
Don't park on the grass, don't feed the bears, don't piss to the wind, and don't eat  
yellow snow

**Verse 4**

Grandma's on the kitchen table making ketchup pie,  
Grandpa's on the front porch with a gallon jug of shine,

We're just a puddle full of Useful mass, and things that you should know  
That old Fast Eddie McClintock well now, how fast can you go
