- Always assume good intent.
- All ideas are valued.

* Which of these are you?
  1 – parent, family member of a young child
  2 – work directly with young children and families
  3 – support individuals who raise or support young children and families
  4 – create or manage systems that support child-/family-serving organizations

Please make sure to give space/voice to 1s and 2s in your groups
Review Previous Meeting
Meeting Date: September 29, 2021

Heidi White (CDE) began the meeting with a presentation that:
- Reviewed definition of mixed delivery from Every Student Succeeds Act
- Addressed question: What compels an AU to partner to meet their obligations to provide FAPE/special education?
- Review of Office of Special Education Programs (OSEP)

### Takeaways from CBO Panel (Cañon City Schools and Centennial BOCES + community partners): Questions & Learnings

<table>
<thead>
<tr>
<th>Excellent work is happening both in school districts and in community-based settings in partnership with school districts. How do we continue and support that?</th>
<th>Panel reinforced importance of relationships, unifying, and larger shared vision between all parties.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Implementation of Pyramid program (social emotional development program) is needed and supportive for those who use it in their classrooms.</td>
<td>Need to develop long-term relationships and trust that all partners are equally invested in achieving the outcomes that the AU is accountable for. This has clearly helped local communities succeed in these partnerships.</td>
</tr>
<tr>
<td>Does the state have an MOU template or guidance to support LEAs and CBOs partnering on preschool services?</td>
<td>Assumptions exist surrounding who can provide high quality services (private, CBO vs. district preschool).</td>
</tr>
<tr>
<td>How are we going to support PD for teachers and offer affordable, accessible, supported, and diverse training and college? How can public funding help support? How do we recruit and retain, monitor burnout? Staffing turnover and leadership turnover is hard to manage when partnering, how to ensure consistency regardless of the people/turnover?</td>
<td></td>
</tr>
</tbody>
</table>

### Ideas and Considerations for Administration of Special Education Services in CBOs

<table>
<thead>
<tr>
<th>What is currently working for administration of special education services in CBOs that could be scaled?</th>
<th>What conditions should be in place for effective coordination and delivery of special education services in CBOs?</th>
<th>What capacity -- skills, personnel, etc. -- could be built for effective special education service delivery in CBOs to continue or grow?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Giving parents space to have a conversation about their choices over programs and involvement in the IEP process develops buy-in and engagement of parents.</td>
<td>Difficult conversations need to occur between child care, preschools, public schools to work towards unity, mutual respect, and collaboration.</td>
<td>Outreach/education by the state on training resources available to LEAs and CBOs; including training, education, and supports for CBOs to have the resources that they need to effectively include children with special needs (which could be provided by LEAs).</td>
</tr>
<tr>
<td>Head Starts bring additional staff and funding to the table.</td>
<td>A shared understanding that CBOs can be supportive sites that can meet the array of family needs that shape preferences about where they want their child(ren)'s needs met.</td>
<td>Workforce: qualified teachers, special services providers, speech pathologists, etc. would help extend the capacity to meet needs in a variety of settings.</td>
</tr>
<tr>
<td>Early intervention service delivery model: pushing services into child care settings when families are utilizing child care.</td>
<td>Develop understanding within AU leadership about early childhood system and the diverse landscape of mixed delivery within the requirements that fall to AU.</td>
<td>Supporting the integration of services in classrooms that support the educational goals that fall to both the classroom teacher and the special service/special education provider aligned with the IEP.</td>
</tr>

GUIDING PRINCIPLES EXAMPLES

- The needs of children and families are at the center of our discussions and recommendations.
- We honor the legal requirements and spirit of the Individuals with Disabilities Education Act (IDEA).
- We support the administration of special education services in mixed delivery settings.
- We endorse inclusive classrooms.
- We value all perspectives and work to understand each other across lines of difference.

Brainstorm
Share your reflections and thoughts honestly and openly.
Everyone can add - brainstorming collaboratively.

Perspectives:

What do we most want other groups to know about our perspective? What are our best hopes? Worst fears?

Guiding Principles:

What do we suggest as guiding principles for our Subgroup? Consider:
1. The needs of children and families are at the center of our discussions and recommendations.
2. We honor the legal requirements and spirit of the Individuals with Disabilities Education Act (IDEA).
3. We support the administration of special education services in mixed delivery settings.
4. We endorse inclusive classrooms.
5. We value all perspectives and work to understand each other across lines of difference.

What standards should be set for Part B 619 service delivery? How can we support meeting those standards?

- What standards should all settings need to meet regarding Part B 619 service delivery?
- Whose responsibility should it be to ensure those standards are being met?
- How can state and local entities work together to support meeting those standards? What agreements/collaboration should exist?
