Review Previous Meeting
Following a presentation from LEAs about inclusive classrooms in public school settings, subgroup participants reflected on common goals of special education delivery in Universal Preschool. Participants prioritized the following guiding principles:

<table>
<thead>
<tr>
<th>Guiding Principle</th>
<th>Supporting Principle</th>
</tr>
</thead>
<tbody>
<tr>
<td>We believe that meaningful parent input should be included throughout this process.</td>
<td>We support linkages for service delivery across settings.</td>
</tr>
<tr>
<td>We strive to unite as an EC community.</td>
<td>We endorse inclusive/least restrictive classrooms as appropriate to support the individual student's needs.</td>
</tr>
<tr>
<td>The needs of children and families and the professionals who serve them are at the center of our discussions and recommendations.</td>
<td>We focus on children receiving individualized support and programs.</td>
</tr>
<tr>
<td>We value a strengths-based, high expectations approach for children.</td>
<td>We understand that funding be taken into consideration and that additional funding for children with special needs is needed to support mixed delivery.</td>
</tr>
<tr>
<td>We value all perspectives and work to understand across lines of difference.</td>
<td>We support the administration of special education services in mixed delivery settings - with the standard of care approval by the Educational Unit (Administration) locally.</td>
</tr>
</tbody>
</table>

Conditions and collaborations needed to ensure high-quality special education delivery in Universal Preschool:

<table>
<thead>
<tr>
<th>What standards should all settings meet regarding Part B 619 service delivery?</th>
<th>Whose responsibility should it be to ensure those standards are being met?</th>
<th>How can state and local entities work together to support meeting those standards? What agreements/collaboration should exist?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Meet or exceed current CDE licensing standards.</td>
<td>New Department of Early Childhood</td>
<td>There needs to be a mindset shift towards creative problem solving and thinking about the resources we need to foster collaboration.</td>
</tr>
<tr>
<td>Settings who accept funding for Universal Preschool must also accept special education students.</td>
<td>Unification is needed across all federal programs -- IDEA, E/HS, and Title I all have measures, but they are not aligned.</td>
<td>Collaboration is needed across the entire 0-5 continuum, especially around data and data sharing. Students need to have smoother, supported transitions.</td>
</tr>
<tr>
<td>Quality standards related to CO Shines, evidence-based practices related to intervention, CLASS and ECERS scores, low ratios, use of approved curriculum (basic requirements for LRE and FAPE defined by IDEA), progress monitoring.</td>
<td>State Agencies will retain monitoring (ex. CDE for licensing, DEC for Child Care Licensing)</td>
<td>We can create a strategic plan for regular collaboration and constructive discourse regarding changes, continuation of actions, etc.</td>
</tr>

First, we’ll focus on the bottom levels -- nurturing and positive relationships; high-quality, supportive learning environments; Tier 1 universal instruction:

**Workforce Qualifications**

What qualifications are needed in the ECE workforce to ensure that inclusive learning environments are being provided for all children? How can we recruit and retain such a workforce?

**Workforce Supports**

What professional development should be provided to the ECE workforce in service of providing an inclusive learning environment for all children? How should we consider compensation? What are our other thoughts on how to provide support?
