

Bridal Party Questionnaire

We understand the significance of a woman’s wedding day – a moment in time memorialized as a reminder of her commitment to her chosen partner. We hope to work with the bride and her party and contribute to the beauty of the day.

We'll first start by gathering as much information as possible:

- Type of style (updo, down style, combination, set in curls)
- With bridal veil, tiara or no veil
- Makeup (soft or dramatic)
- Additional hair services for members in the bridal party
- In-salon or offsite services
- Reservation of wedding date

This is information will help us provide a quote for services and ultimately execute the services with greater effect and facility. Our stylists are very well versed in the areas of updos, evening styles, and make up. We also offer day of beauty packages geared specifically for the bride, the groom, or the entire bridal party with such services as facials, waxing (face and body), massage, manicures, and pedicures. We can also arrange catering for your wedding party – it is a celebration after all.
