## **New Healthy Twist on Frozen Kid Favorite Meals**

*Mom Made Foods Launches Two New Meals Offering More Variety for Health-Conscious Families*

**ALEXANDRIA, VA (September 21, 2017)** – Through major market moves this month, [Mom Made Foods](#), a leading producer of family-favorite frozen meals and snacks, has made mealtime easier than ever. The company is proud to introduce two new Mom Made Meals - **Buttered Noodles with Chicken Meatballs** and **Cheesy Noodles with Beef Meatballs** - that are now available in freezers at select Walmart and Safeway stores at a suggested retail price of \$4.99.

As consumers struggle to find high protein, low sodium, preservative-free, easy-to-prepare meal options made with nothing artificial, they are turning to Mom Made Foods. Each product offered by Mom Made Foods provides nutritious, tasty, quick-prep meal and snack options to health-conscious and ingredient-focused families.

“We’re excited about these two new kid-favorite meals launching into stores nationally. These are the familiar, tasty meals that kids are clamoring for and that parents will turn to, knowing they’ll result in big smiles and happy tummies,” said company founder and CEO Heather Stouffer. “With Mom Made’s Buttered Noodles with Chicken Meatballs and Cheesy Noodles with Beef Meatballs, we continue to broaden access, expand our product line and create a destination for health-conscious parents in the freezer aisle. These antibiotic-free, low sodium, protein rich and nutritious meals were tested extensively with kids and received excellent feedback.”

Using no artificial ingredients and antibiotic-free meats, Mom Made Foods provides families with healthy versions of meatballs, macaroni and cheese, spaghetti and other kid-friendly favorites. Mom Made Foods’ products also contain nutritious, vitamin-rich vegetables such as cauliflower, sweet potatoes and butternut squash.

Each product is flash frozen to naturally preserve flavor and nutrients. They contain no artificial preservatives, no trans fats, and no artificial colors and they are significantly lower in sodium than their conventional counterparts. Additionally, all Mom Made Foods’ products are made in the USA.

### **About Mom Made Foods**

*The Mid-Atlantic’s first producer of healthy frozen foods for children, Mom Made is available nationwide in chain stores such as Albertsons, Ingles, Safeway, ShopRite, Whole Foods, and more local chains and independent stores as well as on [Healthygoodness.com](http://Healthygoodness.com).*
