A Leadership Fairy Tale

Current Specialties' Chronicle

2015—2020

Yes, We Must Defend

Artist: Christopher Scheuer

Chris Scheuer is a business person, mostly having worked in Food & Ingredients.

Employed in cacao trading, chocolate processing, information systems development for a leading bank & in trading specialty foods since 1980, Chris witnessed a world of changes, from financial & cultural perspectives since boomer '80's, the rise of monetarism, Reagan economic trickle down policies & world trade growth.

Often returning to artistic expression & developing/evolving style over the years, drawing, painting & in ceramics: When time came to develop brand awareness for Current Specialties, an entrepreneurial enterprise, Chris turned to drawing to produce publicities for Current Specialties & the House Brands, working with available his tools & within his financial means.

As Trump Era rose, so grew concern for America's stability; this increasingly influenced Chris to express his chagrin & it became his way to assist in resistance & to add his input to define American economic & social troubles & capture turmoil upheavals as they become exposed.

In respect of "Current Specialties" core spirit, here is presented a sketch book sequence of Pictures Drawn.

As changes became rapid, so you will notice the rate of creation increased; accelerating markedly in 2018 to today.

Old Pastel—Circa 1998?

Current Specialties—Evolution Solution

Foods carry a story of Society's Traditions & Transitions: Ever evolving:
“Current Specialties”.

We trade in goodness through Flavorful Food Ingredients from select World Producer Partners; spreading beauty of culinary & ingredient heritages; sharing riches & developing common understandings: Spreading Pleasures!

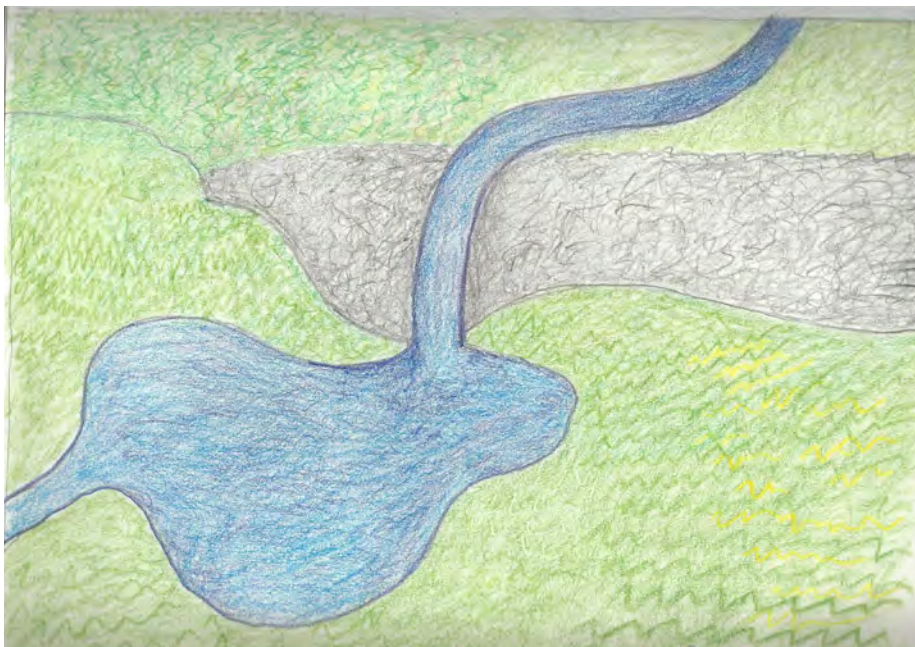

In recent American events, I became swept up in the turbulent transformation: Current Specialties' nascent advertising initiative morphed to contain political content: Political environment turbulence became preoccupying; full attention required to capture new moments everyday; for relevant content to portray.

We seek to leave and answer to the old question,
“How did it happen here”?

We don't expect all to agree but aspire to encourage thoughtful discussions in
closer knit communities.

Aah—Refreshing American Spirit

Enjoy!

2013

Current Specialties, an ingredient importer/marketer established.

2013-2014

Spring '16—Easter Inspiration

Not formally religious, but changing American air of GOP campaign '16 invaded my spirit. Pope Francis' Easter Speech in '16 caught hold of my mind's eye!

Spring '16

Painted both the "Pope" & Maritime Marvels in Acrylic for amusement

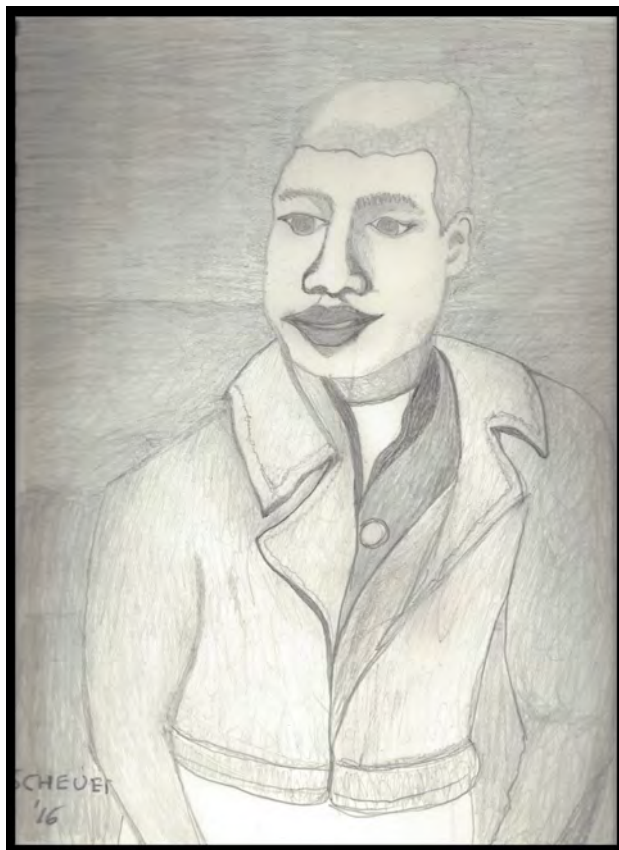

Maritime Marvels

“Summer of Greatness” ‘16

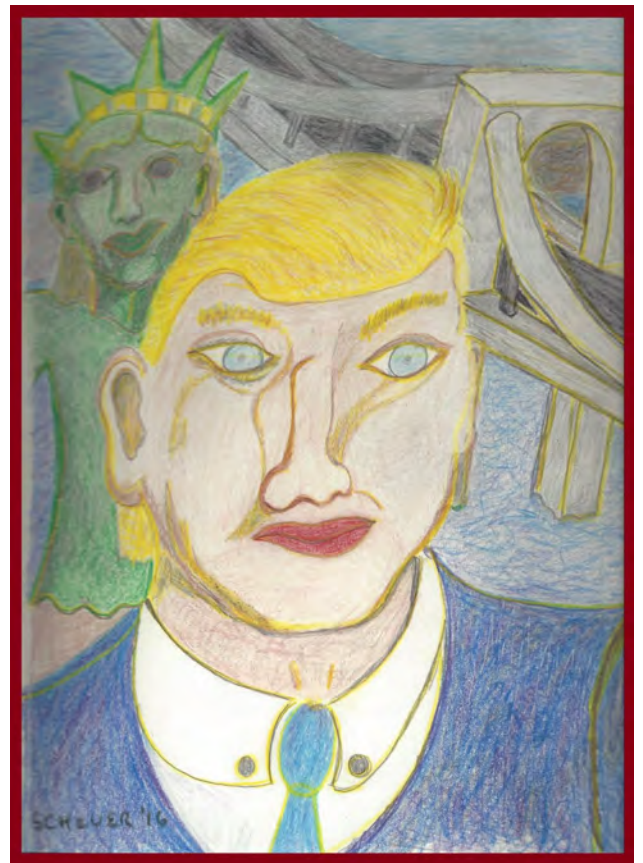

The MAGA message was overwhelming & from Ali (Spring'16), the Summer Olympics & in the early Whitehouse, I considered "Greatness".

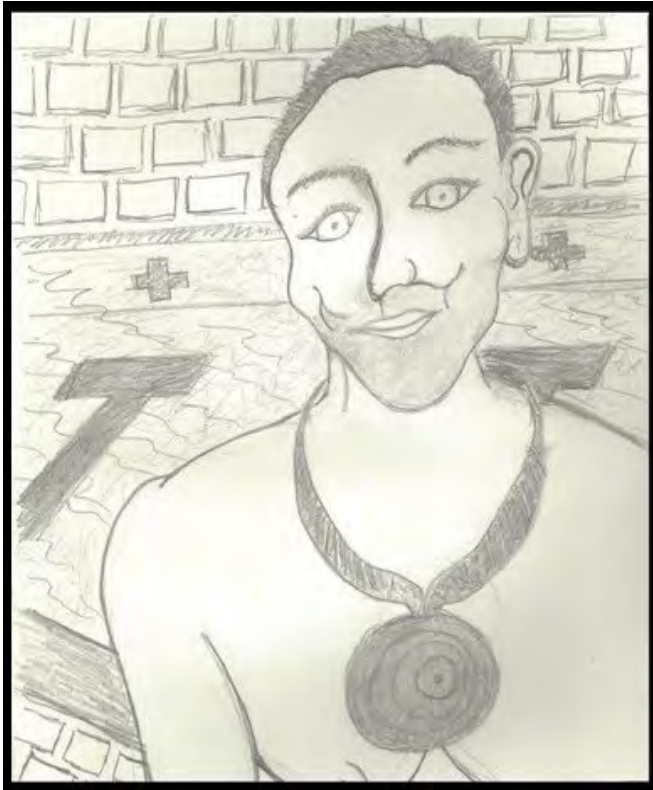

Emotional impression of that summer's emboldened, caustic rhetoric: screamed clearly we were seeing Changing Skylines:

We had a horrific American Manifestation rising; running his mouth for President!

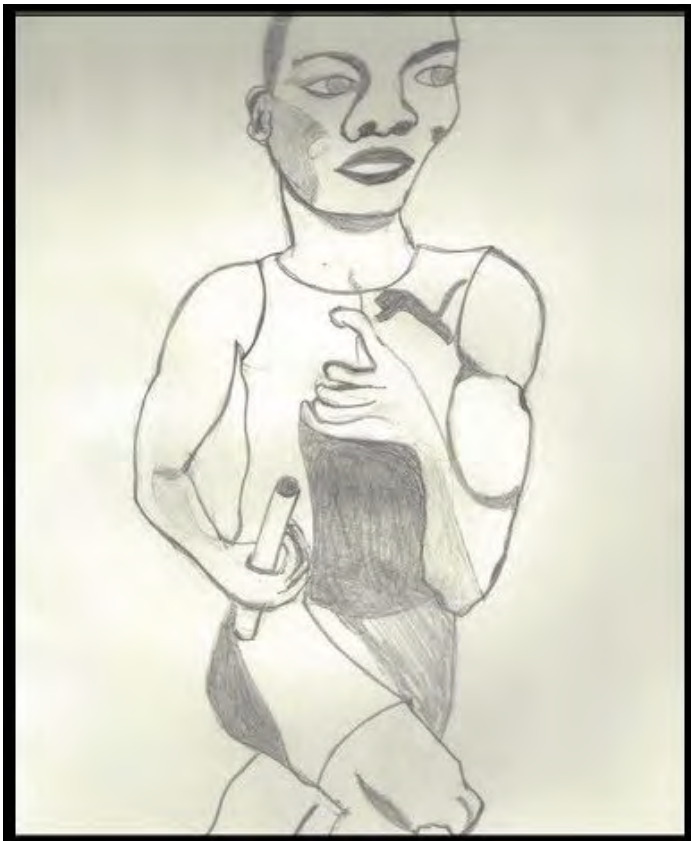

Posting these images with more Political Opinionated Content troubled me as usually am a reserved voice; but some strange necessity overcame common sense restraint.

“Greatness” Olympics Summer‘16

Everywhere we turned, African Americans were predominantly met in our considerations of American Greatness!

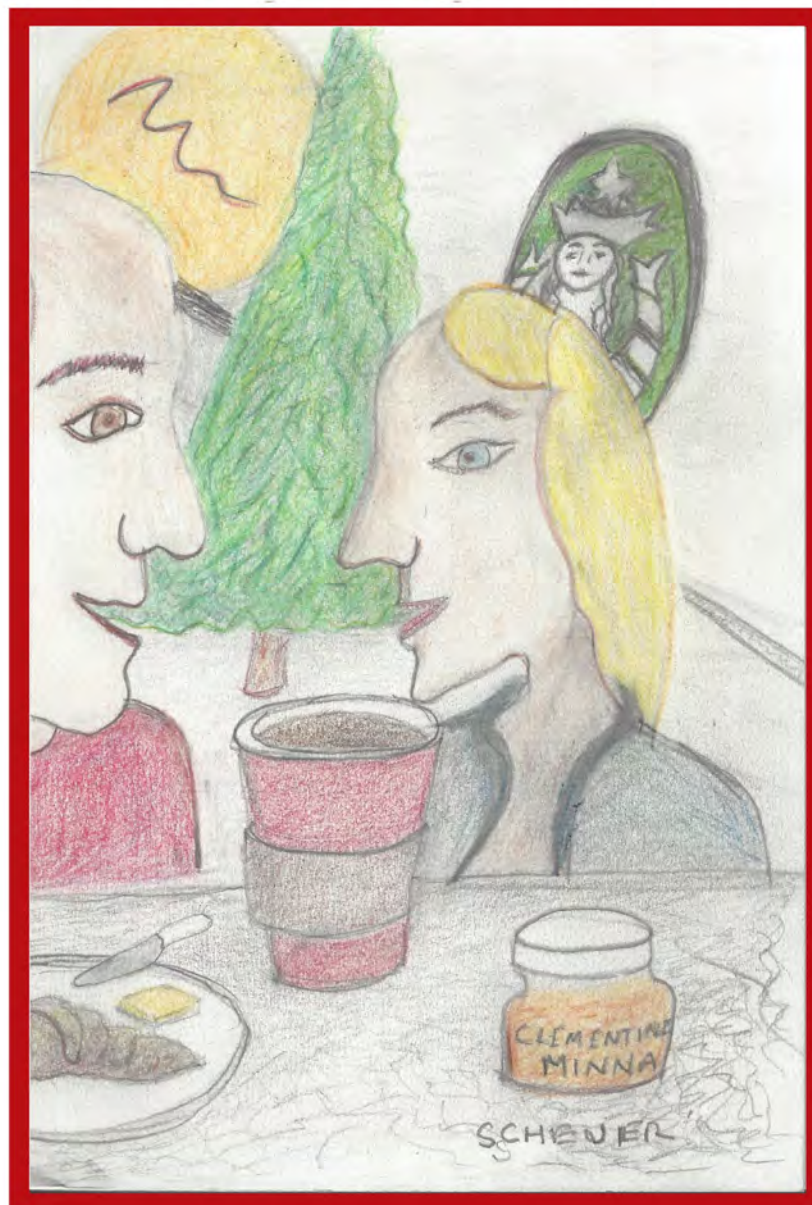

Autumn '16

As for many, the Presidential election outcome was distressing. On Thanksgiving morning, with a nice Republican leaning couple, I had a warm comprehensive discussion covering the Upheaval Potential that T presented: It helped me explore & see more clearly the future World Horizon.

We share Christmas Cheer each year; this picture became Christmas Greeting for '16.

Food Show Paris, Minna Corsica, Marisol & Quinta's Portugal

This drawing dated '17, but was done on way to SIAL Paris in Oct. 16, a large food show; where I spent some fine days working with my old friend Bernard, owner of Quinta's: I wanted to share "diligent effort" drawing to get feedback of proposed ad content: I gave his wife, also a good friend, a drawing of her amid cacao trees. Bernard didn't react well to this picture; Filipa appreciated hers, so I put this Quinta's one away for another day!

This picture important, as I used it in March '17 on Twitter and it got a "Like" from an art critic: As my posts don't often garner attention, it surprised & delighted me! His take, different from Bernard's, gave me heightened confidence in my artistic efforts, progress & style!

(Prior to Social Media, I never shared broadly my creations)!

Political '17

Soon after inauguration ready compliance by Republican Membership to New T Agenda became apparent & the deliberate initiative to harm America & change World Order became clear. We were drawn to share snapshots & add political/ policy reflections concerning these.

Steve Bannon Nov. 12, 2013
<http://www.thedailybeast.com/articles/2016/08/22/steve-bannon-trump-s-top-guy-told-me-he-was-a-leninist.html>

"I'm a Leninist," Bannon proudly proclaimed. Shocked, I asked him what he meant.

"Lenin," he answered, "wanted to destroy the state, and that's my goal too. I want to bring everything crashing down, and destroy all of today's establishment."

Donald Trump Feb. 10, 2014
<http://video.foxnews.com/v/3179604851001>

Now, you know what solves it? When the economy crashes, when the country goes to total hell, and everything is a disaster. Then you'll have riots to go back to where we used to be, when we were great.

The changing American Fabric continued to trouble my soul, bringing more Social Commentary elements into Current Specialties' ads: There seemed to be a need for a story line of brotherhood & support for improved, more peaceful dialogue among us.

America was now of two Hearts!

Autumn '17

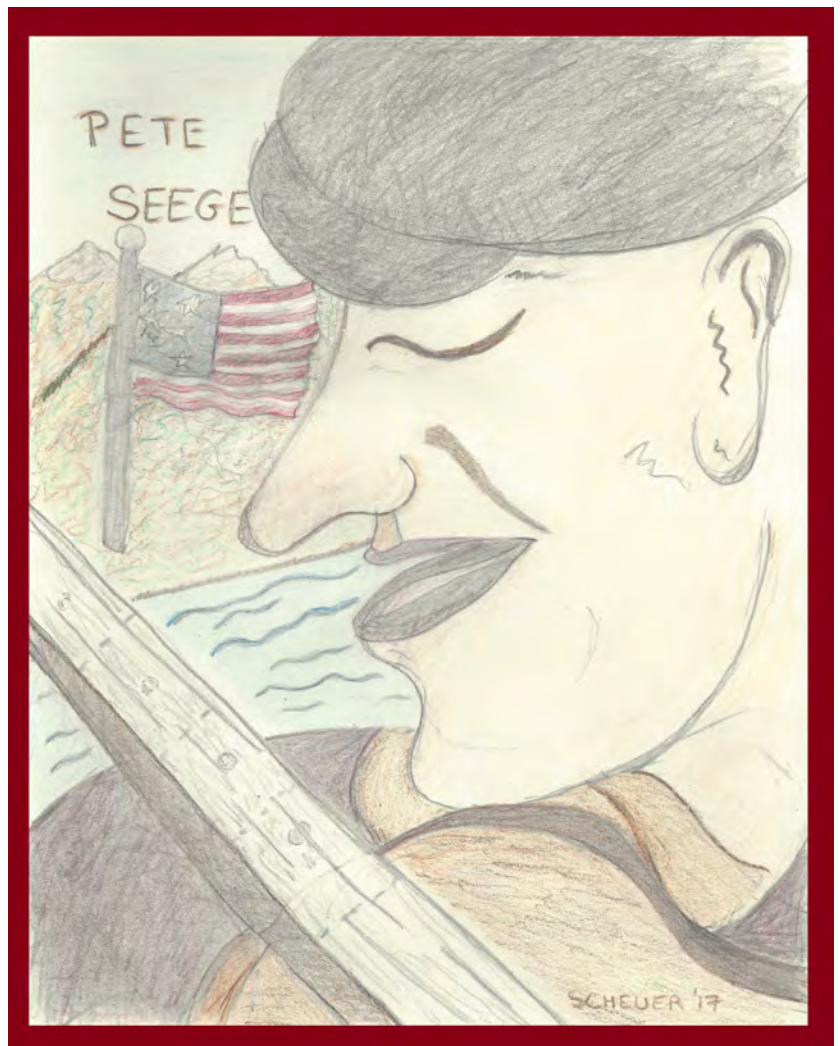

It required increasing attention to keep pace with the changes that were upon US. A New scene each day. Lotta North Korean Taunting! Came to ask myself, would it be KJU or Ayatollah Khamenei?

Autumn '17

The Hour was getting late to save our Great American State. Our more Peaceful Soul was dying as we watched the Gold Fish Blovi-ate Daily Bull Shit! Bob Coker showed there may be some crack in Republican anything goes allegiance.

Got thinking back to Resistance 60's.

Autumn '17

We felt it important to share gravity more openly than public pundits could/should do as to America's Horizons. As an independent voice, we thought to speak more boldly would be good: Plenty of lines being crossed on the "other" side!
