"The Fairytale"

A Pictorial Historical Document

2016 - 20...?

From a Larchmont Resident's Perspective

The Fairytale began as an Advertising Effort for Current Specialties, a Purveyor of Flavorful Everyday Ingredients.

Current Specialties promotes Sharing of Goodness through Soulful Ingredient Treats: To improve Our Stews.

The Advertising initiative, nee '15, to Brand Ingredients:

To promote Current Specialties' stuffs, eying industrial to end consumer awareness.

As US Political Winds came to change, the artistic effort naturally morphed to include socially awakening content: By January '18, Leadership Fairytale was born.

There is at least one picture per week since mid-'16.

Early content are pencil/colored pencil sketches:

As Social Turmoil grew, seeking bolder impressions; pastels & then oil painting became more go to appropriate tools.

As a Larchmont Resident, with not propensity to travel far, it became habit to relax, dine & observe around town, to capture the historical moments' expression.

Enjoy this collection of reflections from around Larchmont Town.

Included are a good number of other pictures to express the emotions of the moments in time; to recall where we have been & comprehend where we may be going. We walk the trail together.

All Works are for sale:

Return Policy: 80% Value.

We encourage All to Invest, Trade Frames & Promote Our Book.

The Summer of '16 caused angst & became known as "Summer of Greatness": With Olympics Underway,

GREATNESS

sketches of purely social commentary came, like Ali & First End Bridge here.

The Pictures are presented in Chronological Order: This is the way Fairytale normally proceeds: She believes it enhances communication.

Take a Break - Make "MMM" Great

This an important sketch: It is an early colored pencil, souvenir of a vibrant discussion at the Post Road Starbucks Thanksgiving '16 morning: We discussed World Affairs: The discussion illuminated the horizon for me. This was used as Current Specialties' Seasoning Greeting end of '16 year.

Funny Coincidence:

Model for Liberty started a themed tattoo sleeve of #IronMan. This Liberty was done from my mind on Monday; I learned of #IM body Art last night. Odd how these two pictures are similar!

November '21 – Another Spectacular Month it was!

By end of November, the situation seemed terminal: In fact, this was the last update of Fairytale Book.

The Paintings continue, but the concurrent Fairytale Book Record ended. The thoughts turned more to rebirth & renewal.

Communities, Foods & Defense became subjects as the Revolutionaries' plot transpired.

It is what it is.

Hands of Despair? 10/28

Vagina says it all about America's State. God All Mighty USA! Caught up over pent up peeves of yesteryears, not facing anything near Realities of today?

Forget the Anti-Vax & Mask, consider the risk of Real National Overthrow and what this will mean to your Liberty. The eyes have seen the Gory of the coming of such sinners, time & time again in histories. If we believe America to be that Beacon for Humanity, it is Our day to prove our unique illumination.

TBC

Not an alarmist sort; believe like most to be objective. We must face realities, building our capacity to meet challenges which may arise and to build new, better, more flexible good tools.

The Resistance is caught in managing normally for normalcy, facing the Institutional Assaults as they arise, as We should; but we must not neglect to build capacities to face challenges in a far more turbulent State. This risk is now witnessed daily as the #RadicalDialogue, believe it or not, is more distasteful disgrace everyday. The Turbulent Tale the Fairytale is painting is one where we too must Paint better Our Truths, in pursuit of #Unity.

**August

With Summer's Fairytale Chapter of Good Weed reveal of Big Komprimat; 35 year warmongering, willing killing reign of terror by Bush/Cheney GOP, coupled with T Party, foreign operatives inserted in late 90's; the corruption, twists & turns of relationships & who are participants became crystal clear. By September 3rd irrefutable truth of #Bush/#Cheney/#Koch/#TheKing treachery illuminated when Merrick the Hawk came to take down Taj Mahal: See Video. Bush/Cheney were turn coated by The Prince who joined with Putin & the T Party, leaving Koch's chasing their tail!

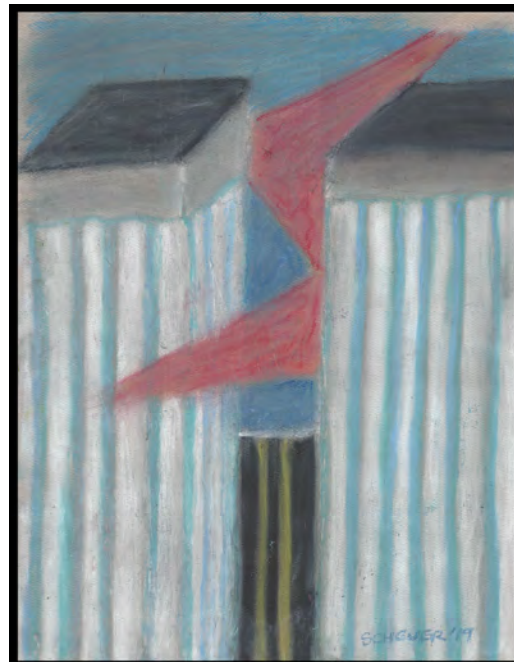

This illustrates the Greatest American Tragedy: The story of #WillingKilling, #Warmongering, assaulters of our homeland @GOP.

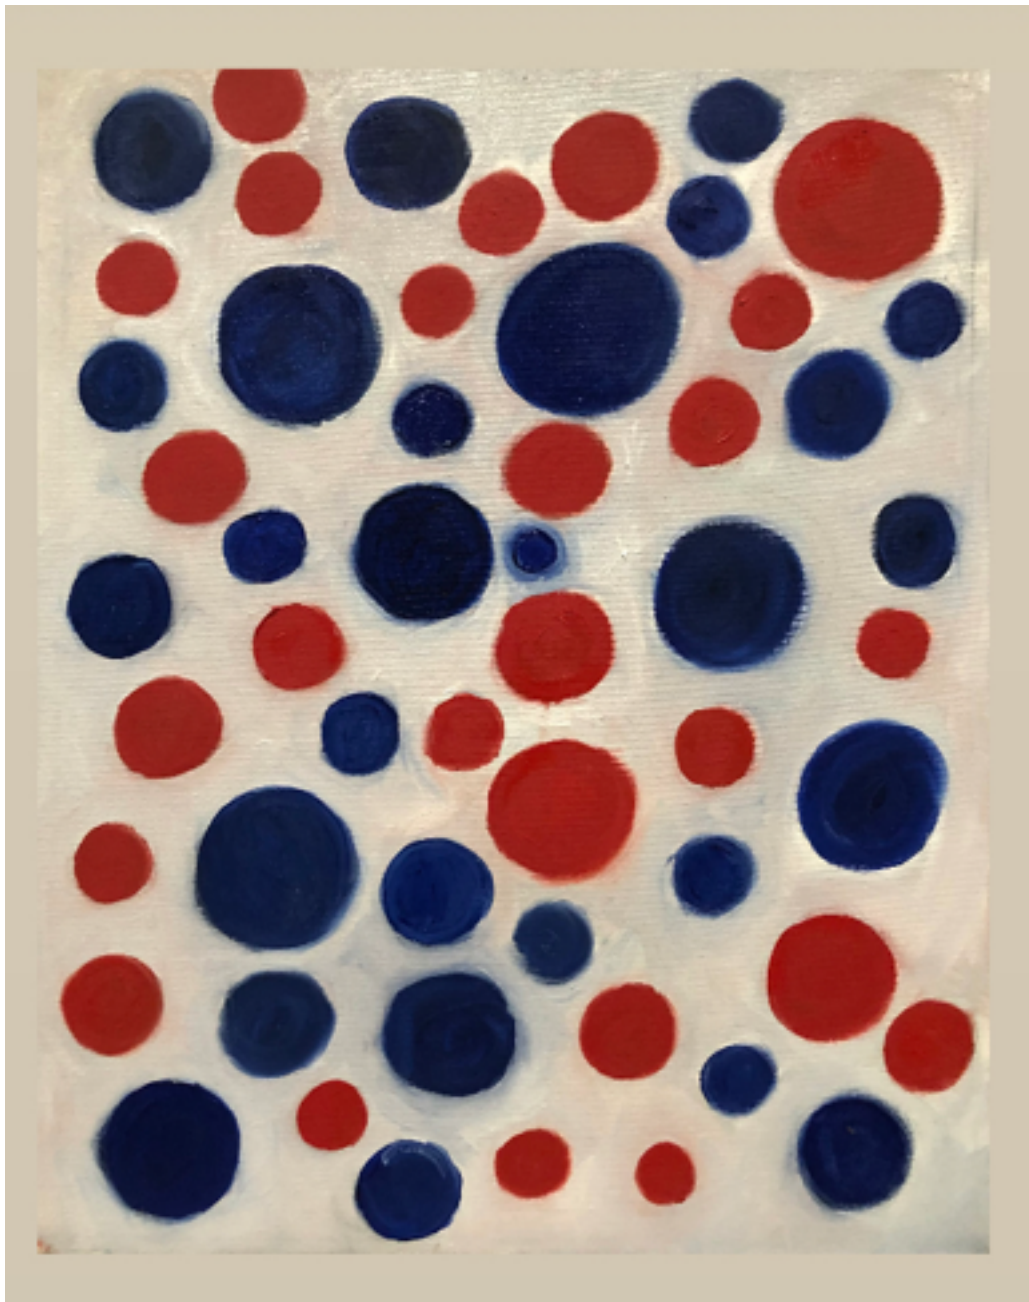

This is joined by TParty, Russian op undermining America's Social & Economic fabric with complicity by both political parties.

This is tragic & America must face her Truths.
