Department Required Common Assignment to Meet and Assess Core Objectives
This assignment will be given in all sections and will use the Institutional Core Objective Grading Rubric for assessment of the core objectives.

Each of these four (4) components listed below will be evaluated via provided rubrics as 25% of the total grade for the assignment:

1. (COM) Students will effectively express ideas in a written, visual artwork, and oral form.
2. (TW) Students will work in teams to complete the assignment, and will evaluate one another’s participation and communication in the process. Additionally, students will evaluate other team’s completed artwork.
3. (SR) Possible topics for social responsibility messages include, but are not limited to: social awareness, identity, gender, political and social beliefs, censorship, environmental issues, human rights and ethics.
4. (CT) The assignment will demonstrate the development, interpretation, and expression of the chosen topic, thus showing the student’s ability to synthesize information and think critically.

Photo Essay Assignment: Working in teams, students will demonstrate an understanding of the purposes and functions of art as it relates to cultural diversity and civic and social responsibility. Student teams will research and reference a historical photographer of their choice and compare and contrast ideas of social responsibility of the photographer’s
culture and time to the students’ present circumstances and beliefs. In the manner of the chosen photographer, students will develop a photo essay (thematical related and in a narrative series of images) that records/documents people in the local, national, or global community working toward making a positive change. For example, students could conduct a behind the scenes photo essay of a person(s) who engage in altruistic activities such as volunteering for a charitable cause. Students will examine and consider the different points of view of works of visual arts individually and in teams. Emphasis will be placed on working effectively with others to support a shared purpose or goal. Individual students will evaluate the participation and contribution of their teammates. These evaluations will count toward the individual’s grade.

Utilizing critical thinking skills such as inquiry, analysis, evaluation, and synthesis of information, student teams will conduct research and uncover backstories of their subject. This can take the form of interviews, historical research, and other methods of journalistic reporting. Students will be required to work together to gather, analyze, evaluate, and synthesize the necessary background information before beginning the photographic aspect of this project. Utilizing a PowerPoint template provided by the instructor, student teams will orally and visually present their Photo Essay to the class. PowerPoint presentations will include 24 photographic images, with an even number of photos from each contributing team member. Additionally, a 250 word statement of intent and a 500 word synopsis of the project will be required of student teams. Your instructor will provide more details in class.

**Evaluation:**
Grading Criteria: A combination of oral assignments, written assignments, in-class or online quizzes/examinations, oral presentations, and classroom/online activities can be used to evaluate student performance. Each instructor will have at his/her discretion, the ability to combine the admixture to evaluate student performance. Students may display their level of understanding of the learning outcomes in several manners.
