

FOR SALE

MAD MAX

Mad Max is a Davidson 40 built in New Zealand in 1986. Her designer, Laurie Davidson, is one of the most successful racing yacht designers of all time. His designs have won the America's Cup, and set world speed records in all long distance sailing disciplines. Mad Max is a one-off design, which means there is no other boat in the world like her. Her exceptionally beautiful lines attract attention wherever she races.

Mad Max is also one of the most successful racers of all time winning The Admirals Cup, Kenwood Cup, Vic-Maui, Swiftsure, Southern Straights, VanIsle 360, and many more. Notable skippers and helmsmen include Tom Dodson (Olympian, America's Cup), Ray Haslar (New Zealand Sailor of the Year, 2005), Brad Butterworth (America's Cup, Whitbread), Ross MacDonald (Canadian Star Silver and Bronze Olympic medals).

Mad Max is still in top race form and looking for a bright new owner to continue her winning legacy. She's ready to race. She's priced to sell. Safe and secure moorage available in downtown Vancouver. Asking price: \$45000 USD
