

Londonderry Social Housing Redevelopment Project

*Be part of the new approach to
social housing redevelopment.*

Public Engagement Phase 2: Generating Ideas

Join us at the next public meeting on Tuesday, April 26.

To help meet current and future housing needs, the Londonderry social housing site located at 14510 – 72 Street is being redeveloped. Within the new development, indistinguishable from each other, will be a mix of market and affordable housing with a range of density from 200 to 240 homes depending on the form of development chosen for the building site.

Be a part of the discussion and process of determining the potential form of this residential development, as well as any additional features or secondary elements that could be incorporated as a benefit to all community residents.

Tuesday, April 26, 2016

5:00 pm - 8:00 pm

Presentation at 6:00 pm

Kilkenny Community Hall

14910 - 72 Street NW
