

# Londonderry Social Housing Redevelopment Project

*Be part of the new approach to  
social housing redevelopment.*

## Public Engagement Phase 3: Concept Options

Join us at the next public meeting on Wednesday, June 22, 2016.

To help meet current and future housing needs, the Londonderry social housing site located at 14510 – 72 Street is being redeveloped. Within the new development, indistinguishable from each other, will be a mix of market and affordable housing with a range of density from 200 to 240 homes depending on the form of development chosen for the building site.

Receive updates, and have the opportunity to review and provide input on three building concept options being considered for this residential development. The options being presented take into consideration various criteria and requirements, as well as the public feedback received at the Phase 2 meeting.

**Wednesday, June 22, 2016**

5:00 pm - 8:00 pm

Presentation at 6:00 pm

**Kilkenny Community Hall**

14910 - 72 Street NW
