Re: Letter Supporting Mobility Choice Blue Print Study

Dear Honorable RTD Board of Directors:

The North Area Transportation Alliance (NATA) looks forward to working with the RTD Board in 2017 to ensure our communities have access to excellent transit services. The Mobility Choice Blueprint Study provides a new opportunity to explore how to meet the needs of the growing Denver metropolitan area.

We ask for the Board to approve the request of a \$500,000 match to ensure the study moves forward. Please schedule a board action item as soon as possible to approve RTD's investment in future transit and mobility planning to ensure the completion of the FasTracks Plan.

Sincerely,

Randy Ahrens, Chair
Mayor, City & County of Broomfield
