

For more than six decades, a provision of the tax code known as the Johnson Amendment has protected the integrity of tax-exempt organizations, including houses of worship, by ensuring they do not endorse or oppose candidates. This law shields these organizations from political candidates and parties that would try to transform them into tools for their own political gain. It also ensures that these organizations and their leaders maintain robust free speech rights to speak about social and political issues.

Even so, President Donald Trump has vowed to "get rid of and totally destroy the Johnson Amendment," and some Members of Congress have introduced legislation to do just that. This is an extremely unpopular and unwise idea. Americans do not want our charities and houses of worship to be torn apart by partisan campaign politics. In addition, taxpayers should not be forced to subsidize the partisan election activities of these organizations.

Please reject any attempt to undermine the Johnson Amendment.

SIGNED:
