Dear Attorney General Ellen Rosenblum,

Oregon’s status as a sanctuary for all is under threat. NORCOR continues to house detained persons for ICE/DHS without access to family visits or adequate conditions. National hate groups are pouring money into the campaign to repeal our 30 year-old sanctuary law. And now, ICE and the US DOJ are taking aim at states like Oregon whose sanctuary policies promote public safety and protect our families.

Oregon families need your continued leadership. Protect Oregon’s diverse communities by standing up to NORCOR, supporting laws that prohibit other jails from profiting from ICE’s dragnet, and continuing to lead Oregon in the national fight to keep families together.

This matters to me because:
