STEP ABOVE II

Superior Quality Residential and Commercial Carpet Cushion

This product is the most advanced carpet cushion foundation available in the carpet industry. Developed after many years of scientific research, and manufactured with proprietary chemistry and technology. STEP ABOVE II has been engineered to be the very best carpet cushion.

Can also be used as a foundation for indoor playground areas.
Test reports are available.

Features

- Made with thousands of micro-cellular cells, each one functioning as a shock absorber and providing support, support and more support for both carpet and the human body.
- Hi-density (12 + lbs/Ft³) keeps the carpet level, preventing carpet delamination and any need for restretching.
- Excellent comfort underfoot, yet strong enough to reduce carpet yarn matting, crushing and wear. Keeps carpet looking new for a longer period of time.
- Superior insulation and noise reduction properties; works very well with radiant floor heating.
- Made using 100% virgin polyurethane containing no smells or odors. No formaldehyde or other harmful chemicals used. Very friendly to the environment. Contains virtually no chemical emissions or VOC off gases.
- Can be installed by using double stick method or direct cement down or stretch in loose lay (residential only).
