

# My Neighbors

*This tool is helpful to identify your neighbors. Ask yourself “Who are the eight people in closest proximity to me?” These may be the people who are literally in your neighborhood. They may also be people at work, people at the gym, or people you see regularly at your kid’s ball games.*

*Place their names in each of the 8 boxes surrounding you and begin praying for them.  
As you learn more about them over time, add info to each box to better focus your prayers.*
