

## The Enterprise Selenium Grid

IN-HOUSE

SECURE

MAINTENANCE FREE

HIGHLY SCALABLE

### Selenium Box in a nutshell:

- Support for Firefox, Internet Explorer, Chrome, Edge, OSX Safari
- Superior performance and reliability
- Security and data privacy due to hosting in your environment, no data leaves your network
- Video reporting
- Advanced system monitoring options
- Live view / live debugging capability for each test
- Isolated environment for each test
- Simple integration with CI systems
- Maintenance free, fully automated browser updates of Grid hub, nodes and browsers
- Standard and unmodified Selenium / Webdriver API

- Big cost & time savings
- Focus on testing instead of building test infrastructure
- Reduce execution times and enable ultra fast feedback cycles
