Dear Local 709 Members,

Local 709 has been hearing from multiple contractors about job sites and end user facilities requiring all workers be fully vaccinated.

If our signatory contractors do not have enough vaccinated employees to fill these jobs, they will look to Local 709 to fill them.

We are asking that you voluntarily provide Local 709 with your vaccination status. Again this is voluntary. This would not alter your ability to be dispatched for any other projects. It would be no different then when a job site requires an OSHA 30 Certification or a Local Hire requirement.

Thank you,

Todd W. Golden
Business Manager
Sprinkler Fitters U.A. Local 709
