

A List

2017

The CDP A List 2017

The Climate A List was established in 2011 and introduced for water and forests in 2015 and 2016 respectively. Due to the more established nature of CDP's climate program it has proportionately more responding companies and therefore more companies achieve an A score in climate. A significantly smaller pool of organizations are asked to respond on forests and water. Where relevant, we encourage companies to disclose to all programs to achieve double or triple A status.

Company	Country	Climate	Water	Cattle Products	Palm Oil	Soy	Timber
Consumer Discretionary							
ARCELOR A.S.	Turkey	A	A				
BMW	Germany	A
