REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

**Board of Directors
World Relief Corporation of
National Association of Evangelicals
Baltimore, Maryland**

We have audited the accompanying financial statements World Relief Corporation of National Association of Evangelicals ("World Relief") which comprise the statement of financial position as of September 30, 2013, and the related statements of activities and changes in net assets, and of cash flows for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of World Relief as of September 30, 2013, and the changes in its net assets, and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited World Relief's financial statements and our report dated January 28, 2013 expressed an unqualified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 2012, is consistent, in all material respects, with the audited financial statements from which it has been derived.

WORLD RELIEF CORPORATION OF NATIONAL ASSOCIATION OF EVANGELICALS

NOTES TO FINANCIAL STATEMENTS

September 30, 2013 And 2012

(1) SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND PURPOSE

World Relief Corporation of National Association of Evangelicals ("**World Relief**") is a not-for-profit, charitable organization and a wholly owned subsidiary of The National Association of Evangelicals, a not-for-profit religious organization. World Relief is a 100% shareholder in two microenterprise entities in Kosovo (BZMF) and Democratic Republic of Congo (Hekima), and is a 63% and 33% shareholder in microenterprise entities located in Burundi (Turame) and Cambodia (KREDIT), respectively.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of World Relief and the three majority owned microenterprise entities. For the microenterprise entity for which World Relief owns less than 100%, non-controlling interest is recorded and included in net assets. Substantially all intercompany accounts and transactions have been eliminated.

ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

CONCENTRATION OF CREDIT AND OTHER RISKS

World Relief operates in foreign countries, many of which do not have stable governments or economies. To the extent negative events occur in these countries, World Relief may not be able to recover its assets or remove its cash from these countries. Net assets of World Relief's overseas ministry programs were approximately \$6.2 million and \$6.4 million, including \$4.5 million and \$4.3 million, which includes non-controlling interests, relating to the majority-owned microenterprise entities, for the years ended September 30, 2013 and 2012, respectively. Net assets of the majority-owned microenterprise entities accounted for as discontinued operations amounted to approximately \$1.2 million and \$1.8 million, including non-controlling interest, as of September 30, 2013 and 2012, respectively.

Loans receivable are in connection with World Relief's microenterprise development and agricultural activities (*See Note 5*). Although collateral in the form of land titles is required on most of the loans, the loans are exposed to the risk of default on repayment. World Relief manages this risk through its underwriting process.

World Relief occasionally maintains deposits in excess of federally insured limits. The risk is managed by monitoring the financial institutions in which deposits are made.

WORLD RELIEF CORPORATION OF NATIONAL ASSOCIATION OF EVANGELICALS

NOTES TO FINANCIAL STATEMENTS – (Continued)

September 30, 2013 And 2012

FOREIGN CURRENCY TRANSLATION

World Relief has foreign branch offices in many countries. Assets and liabilities for these foreign branch offices and the majority-owned microenterprise entities are translated at the rates of exchange at the balance sheet date while income statement accounts are translated at the average exchange rates in effect during the period. The effect of such translation adjustments, excluding the amount related to discontinued operations, for the years ended September 30, 2013 and 2012 was a (decrease) increase to net assets of (\$244,561) and \$22,688, respectively.

INCOME TAXES

World Relief is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (the “Code”) and has been classified as a public charity under Section 509(a)(1) of the Code.

The for-profit microenterprise entities included in the accompanying consolidated financial statements pay taxes in accordance with their respective country’s applicable rates and current tax expense is recorded for these amounts. Deferred tax assets and liabilities are recognized for the future consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and the related tax bases.

Management has reviewed the tax positions for each of the open tax years (years ended September 30, 2010 - 2012) or expected to be taken in World Relief’s September 30, 2013 tax return and has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements.

CONTRIBUTIONS TO INDEPENDENT ENTITIES

It is World Relief’s practice that its overseas ministry programs may eventually become independent entities or be transferred to like-minded organizations. When the decision to transfer such assets is approved, World Relief records a liability for the net assets to be transferred and a corresponding charge to operations for the contribution.

CASH AND CASH EQUIVALENTS

World Relief considers cash and cash equivalents to include currency on hand, demand deposits with banks and short-term investments with maturities of less than three months when purchased.

INVESTMENTS

World Relief records investments in securities at fair market value with the resulting gains and losses reported in the statement of activity. The fair market value of investments traded on a securities exchange is determined based on quoted market prices for those investments.

MICROENTERPRISE LOANS AND AGRICULTURAL LOANS RECEIVABLE

Loans receivable are carried at their estimated collectible amounts. Interest income on loans receivable is recognized using the interest method. Interest income on impaired loans is recognized as cash is collected or on a cost-recovery basis.

WORLD RELIEF CORPORATION OF NATIONAL ASSOCIATION OF EVANGELICALS

NOTES TO FINANCIAL STATEMENTS – (Continued)

September 30, 2013 And 2012

Loans receivable are periodically evaluated for collectibility based on past credit history with clients and their current financial condition. Provisions for losses on loans receivable are determined on the basis of loss experience, known and inherent risks in the loan portfolio, the estimated value of underlying collateral, and current economic conditions. Loans are written off when they remain unpaid six months after maturity date, or when, in management's judgment, there is no prospect of recovery after taking into account the realizable value of collateral, if any.

PROPERTY AND EQUIPMENT

Property and equipment are capitalized at cost and depreciated over their estimated useful lives on the straight-line basis (buildings – 29 years, computer, office and other equipment – 3-8 years and vehicles – 5 years).

World Relief receives various federal, state, city and private grants and contracts relating to refugee immigration, relief and disaster response. Property and equipment purchased through grants/contracts are expensed in the period purchased. The property and equipment is retained by World Relief or returned to the grantor based upon the grant/contract.

NET ASSETS

Net assets, revenue, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of World Relief and changes therein are classified and reported as follows:

Unrestricted Net Assets – Net assets that are not subject to donor-imposed restrictions.

Temporarily Restricted Net Assets – Net assets that are subject to donor-imposed restrictions.

CONTRIBUTIONS

World Relief reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are classified to unrestricted net assets and reported in the statement of activities as *“net assets released from restrictions.”*

GIFTS IN-KIND AND VOLUNTARY SERVICES

GIFTS IN-KIND

World Relief receives in-kind goods for resettled refugees and for emergency interventions and other overseas programs. These resources are provided by refugee sponsors, churches, individuals and organizations. The value of in-kind contributions made to World Relief was \$859,371 in 2013 and \$847,847 in 2012. In addition, refugee sponsors and others often provide goods and services directly to resettled refugees; however, the value of these goods and services is not included in the financial statements.

VOLUNTARY SERVICES

Worldwide, volunteers account for a majority of the World Relief workforce, greatly multiplying the number of people reached by the organizations' global ministries. In many cases volunteers serve on the front lines of World Relief's programs, partnering with staff to increase the impact of services given. Approximately 100,000 people volunteered with World Relief in each of the years 2013 and 2012. The value of these non-paid workers is not reflected in the financial statements.

U.S. GOVERNMENT GRANTS

World Relief has various grants with federal, state and local governments. World Relief generally recognizes revenue under these contracts when the related expenses are incurred (exchange transactions).

FUNCTIONAL ALLOCATION OF EXPENSES

World Relief's costs of program and support activities have been summarized on a functional basis in the statement of activities and changes in net assets. The costs of certain multipurpose activities have been allocated based on level of effort among program and support ministry categories.

PRIOR YEAR INFORMATION

The financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such comparative information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such comparative information should be read in conjunction with World Relief's audited financial statements for the year ended September 30, 2012, from which the summarized information was derived.

RECLASSIFICATIONS

Certain reclassifications were made to the 2012 financial statements to conform to the 2013 presentation.

(2) DISCONTINUED OPERATIONS

During the year, World Relief liquidated its assets and settled substantially all liabilities while contemporaneously searching for a reputable organization to transfer all net assets of its wholly owned microfinance entity, BZMF in accordance with its plan set forth in the prior year. An organization has been identified and, subsequent to year-end, an agreement was signed to transfer all remaining net assets to the organization within Kosovo. As such, the operating results of BZMF are included in discontinued operations.

(4) FAIR VALUE OF FINANCIAL INSTRUMENTS

World Relief utilized various methods to measure the year-end value of its investments. Generally accepted accounting principles establish a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are described below:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that World Relief has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing World Relief’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The inputs methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The summary of inputs used to value World Relief’s investments as of September 30, 2013 are as follows:

	2013			
	Total	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs

Total contributions receivable	<u>\$ 2,448,299</u>	<u>\$ 833,782</u>

Included in contributions receivable is approximately \$1,800,000 which relates to a bequest received for general support of World Relief’s mission. The estate was validated through probate in June 2013 and is expected to be received in 2014.

(6) MICROENTERPRISE LOANS AND AGRICULTURAL LOANS RECEIVABLE

World Relief operates microenterprise development activities through microfinance institutions. These community-based loan programs are designed to assist individuals without access to normal banking resources with loans for the development of small business enterprises. These loans consist of funds lent to entrepreneurial individuals, solidarity groups, and community banks for the purpose of furthering economic development in the communities served. Agricultural loans are granted for the purpose of improving the delivery of agricultural services to small farmers in Nicaragua and Haiti.

Microfinance loans receivable, excluding amounts that have been reclassified as discontinued operations, and agricultural loans receivable, net at September 30, 2013 and 2012 consist of the following:

	<u>2013</u>	<u>2012</u>
Microenterprise loans (net of allowance of \$133,649 in 2013 and \$183,583 in 2012)	\$ 2,516,383	\$ 2,566,806
Loans to local Nicaraguan and Haitian agricultural loan partners (net of allowance of \$143,236 in 2013 and \$143,908 in 2012)	<u>1,327,288</u>	<u>1,543,493</u>
	<u>\$ 3,843,671</u>	<u>\$ 4,110,299</u>

Microenterprise loan balances in each location are as follows:

	<u>2013</u>	<u>2012</u>
Turame	\$ 1,142,604	\$ 1,283,795
Hekima	<u>1,373,779</u>	<u>1,283,011</u>
