I got golf clubs for my birthday.
What do I keep them in?

Who is playing golf with me?

Whose ball landed in the pond?

Where did Rolf's ball land?

Who took us to the golf club shop?

Draw the prize for the top shot.

Which golf ball went into the hole?

Golf Course Game

As a board game for 2 players: each has a token and take turns to roll a die, then move tokens accordingly. Numbers represent a hole, and each must roll exact number of squares to land on the number. Water, trees and sand are hazards on which a player misses a turn if they land on those squares.

Where am I?

Alternatively, mark each grid line with a letter (across) and number (down). In pairs. One player decides where he/she is and the other uses grid references to guess their location.
