

Public Service Announcement

Subject: Jack Creek Access Road Closure

Dates: July 17th, 2017 til July 27th, 2017

Purpose: Replace Culvert

Details:

This road system will be temporarily closed due to the construction to replace a culvert along Jack Creek Access Road near the top of Empire Creek Road. There are road closed signs in place to caution traffic from both directions but due to the construction no thru traffic is possible. Culvert size is 8 feet wide by 50 feet in length. As soon as road is open for safe travel, a notice to inform public and other natural resource departments will be broadcasted.

Additionally, Empire Creek is not open due to spring run off in which upper empire creek road washed out and towards the lower end about 1 mile past the bridge installed last year another road washout occurred.

Thank you for your patience and for any questions you may contact Terri Covington at 509 634-2400 (office) or 509 634-1251 (Cell).
