

PUBLIC NOTICE

EXCESSIVE HEAT WATCH FOR WEDNESDAY AND THURSDAY FOR THE ENTIRE COLVILLE RESERVATION

DATE: August 6, 2018

Excessive Heat Watch

Temperatures: Highs in the upper 90s to 110. Lows in the 60s and 70s.

WHEN: Wednesday through Friday

WHERE: Eastern Washington and North Idaho

IMPACTS: Hot temperatures and limited relief overnight will increase chances for heat related illness especially for those without access to air conditioning. Heat stress is also possible for livestock and outdoor pets.

TEMPERATURES: Afternoon highs of upper 90s to 110F and overnight lows in the 60s to low 70s.

NATIONAL WEATHER SERVICE SPOKANE, WA

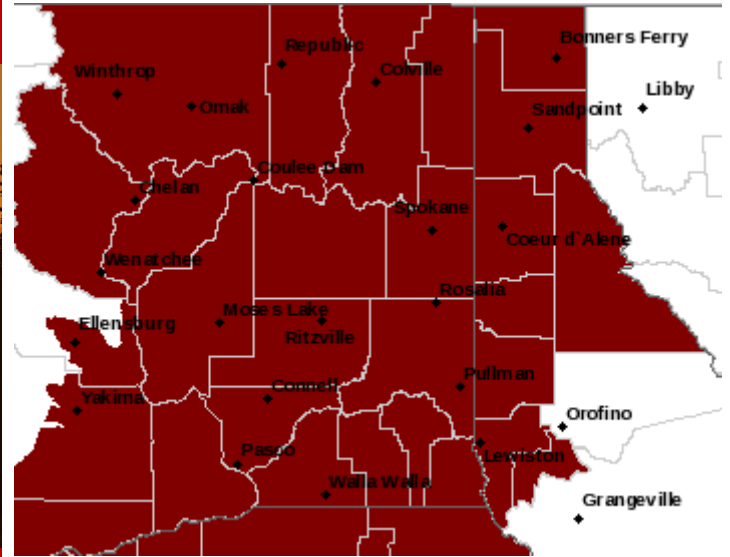

ISSUED: 6:59 AM - Monday, August 06, 2018

The National Weather Service in Spokane has issued an Excessive Heat Watch which is in effect from Wednesday afternoon through Friday evening.

* Timing: Hottest temperatures will occur between noon and 7 pm each day. Thursday will likely be the hottest day.

* Impacts: Hot temperatures and limited relief overnight will increase chances for heat related illness especially for those without access to air conditioning. Heat stress is also possible for livestock and outdoor pets.

Last Map Update: Mon, Aug. 6, 2018 at 10:25:21 am PDT

PRECAUTIONARY/PREPAREDNESS ACTIONS.

An Excessive Heat Watch means that a prolonged period of hot temperatures is expected. Hot temperatures will create a dangerous situation in which heat illnesses are possible after a relatively short period of outdoor exposure. Drink plenty of fluids, stay in an air-conditioned room., stay out of the sun, and check up on relatives and neighbors.
