

Mt. Tolman Fire Center PUBLIC SAFETY NOTICE

Forested and Industrial Operations Shutdown

DATE: August 9 2018

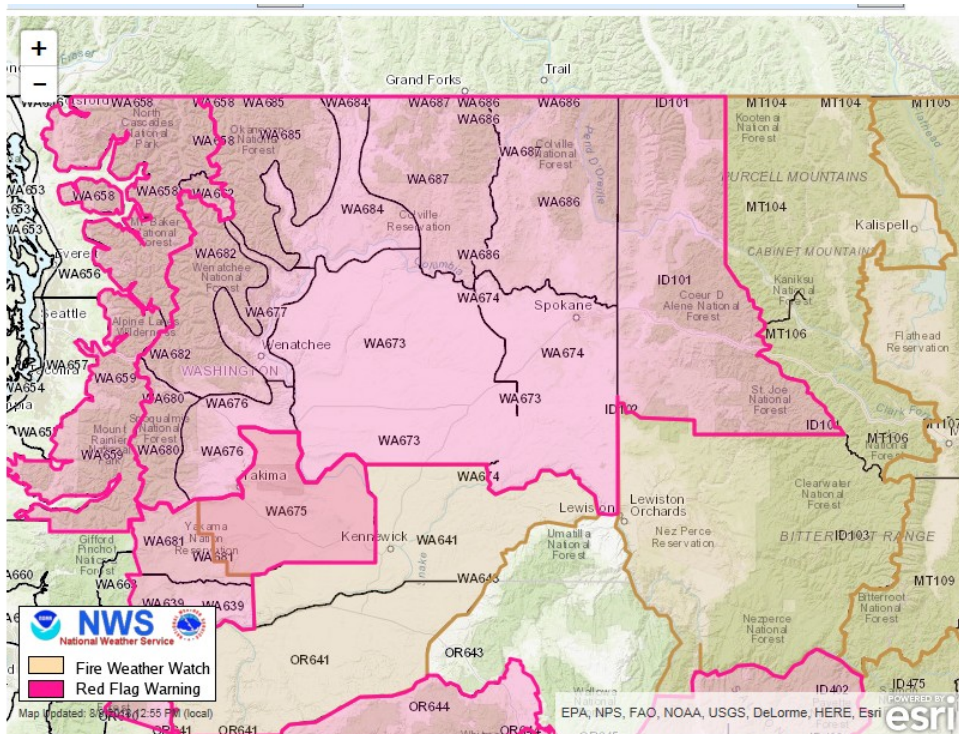

Colville Tribes is issuing a Forested and Industrial Operations shutdown starting immediately and this issue will be re-evaluated on Monday, August 13, 2018.

Hot, dry and unstable conditions look to peak n Friday across Central Eastern Washington . This will be followed by a strong cold front late Friday night into Saturday with the potential for dry breezy winds and a threat of dry thunderstorms. This combination may lead to critical fire weather conditions with the potential for increased fire spread of current fires and possible new fire starts.
