

FAST Grading: Applying the Principles of Effective Grading to Improve Student Performance and Save Time for Busy Teachers

Presented by Dr. Douglas Reeves

Brief Description: This interactive presentation includes practical support for teachers and educational administrators who are grappling with the need to improve student performance while respecting the time constraints of busy teachers. Backed by local and international evidence, the presentation applies the FAST principals - grading that is Fair, Accurate, Specific, and Timely. Topics include assessment, homework, academic honor codes, effective practice, evidence of proficiency, discipline, work ethic, and many other practical issues that face educators today.

The presentation is based on the best-selling books “*Elements of Grading: A Guide to Effective Practices (2nd edition)*” and “*FAST Grading: A Guide to Implementing Best Practices.*”

While he is visiting your school system, Dr. Reeves is also available to meet with senior leadership teams, student leaders, community leaders, parent leaders, governing board members, teacher association leaders, and other critical stakeholders in your system.
