“I’m most proud of my grades and sports achievements. I’m currently going to state for cross-country and track and field. The sports experience here is great.”

Ethan Breen, Senior

“I love high school kids. They are the most exciting, creative, engaging people. They have incredible power they don’t even realize yet. I think they challenge us to be our best selves.”

Paul J. Karafiol, Principal

“If you’re interested in STEM, Lake View is a good place to start to dip your feet into the field.”

Ngan Kim Luong, Class of 2018, Freshman at Georgetown University

“We are dedicated to making sure students are taught using the ‘four C’s’ of STEM – communications, collaboration, creativity and critical thinking – which are important to any career you choose.”

Erin Kitson, Director of Community and Student Affairs

“What draws me to Lake View is its overall sense of community. It comes from the diversity. It comes from the restorative justice practices. It comes from teacher collaboration. It comes from all the opportunities for students outside the curriculum.”

Sheldon Krieger, Teacher
Lake View High School In Their Words

“High school has its ups and downs – drama and what not – but it seems like when it’s time to put that aside, we come together as a team or a family.”

Miguel Agyei, Class of 2018, Freshman at Bradley University

“I’ve had such an amazing experience here at Lake View. I’ve heard so many people say that high school is the best years of their lives, and it honestly is.”

Stephanie Ochoa, Senior
