

## Joanna Barrientos

### Graphic Designer

#### Lengo Football Academy Australia and Tanzania

Joanna is an international student completing a Master's degree in Business Administration at Kaplan Business School. Prior to this, Joanna graduated with a Bachelor's degree in Multimedia Arts at De La Salle – College of Saint Benilde, Philippines. She is a Freelance Graphic Designer and has worked as a Product Specialist for four years. Aside from graphics, her expertise includes creative writing, desktop publishing, photography, video editing, web design and animation.

Joanna has always wanted to contribute to the society. Studying in Australia has allowed her to do so by volunteering to organisations such as Lengo Football Academy and Spectrum. One of her missions in life is to use her passion for digital arts to make a difference. She hopes that her skills will enable her to reach a wider audience and inspire them to give back to the society.

As an advocate of education for all and transforming lives for the better, Joanna is thrilled to be part of Lengo Football Academy. She is looking forward more projects with Lengo and to seeing more smiles from children touched by the team's initiatives. She hopes that her part in creating communication materials will encourage more people to support such meaningful cause.
