About the wine

Pinot Grigio is often grown at low elevations and machine harvested. Our Pinot Grigio consists only of grapes harvested by hand from reduced-yield hillsides and steep slopes. The large temperature differences between day and night in these vineyards is the magic that lends the wine its distinctive aroma of white peaches, fresh flowers and citrus fruits. In the mouth, the wine is juicy and round. The creamy texture is complemented by fresh, animating acidity. This is mainly thanks to the higher-elevation Pinot grigio vines. An expressive wine with a mineral, salty finish.
