

CA' FOSCARI DESK IN THE WORLD

THE PROJECT

Ca' Foscari Desk in the World is one of the key projects launched by Venice Ca' Foscari University, with the aim of developing international internship and placement opportunities for its students.

It stems from the collaboration between Ca' Foscari and prestigious Italian institutions abroad, where the Desks are established.

The Desks are managed by the students, and they represent a "bridge" between the University and the companies based in the foreign country.

THE OBJECTIVES:

- Establishing new agreements between Ca' Foscari and international companies in order to give the students the opportunity to experience an internship abroad;
- Promoting Ca' Foscari University and implementing the number of agreements between Ca' Foscari and local Universities in order to enhance international mobility of students, graduates, researchers, professors and University staff.
