

FOUNDED IN 2012, SHE++ WORKS TO EMPOWER UNDERREPRESENTED GROUPS IN TECHNOLOGY BY DISMANTLING NEGATIVE STEREOTYPES SURROUNDING TECHNICAL CAREERS.

#INCLUDE PARTICIPANTS DIVERSIFY TECH THROUGHOUT THE UNITED STATES.

The she++ #include Fellowship Program empowers high school students to hold workshops, host hackathons, organize clubs, and bring computer science to their communities. The #include program has reached over 1000 high school students across the country.

SHE++ AMBASSADORS DIVERSIFY TECH IN CITIES AROUND THE WORLD.

The she++ Ambassadors Program aims to promote access to and diversity in technology on a global scale. Almost 40 ambassadors spanning 5 continents extend she++'s reach to other colleges, universities and communities.

SHE++ LONDON IS THE FIRST EXTENSION OF SHE++ OUTSIDE THE UNITED STATES.

The London chapter is promoting CS education in the UK by hosting she++ events and establishing their own UK high school program.
