PedeWeb is an interactive 'on line' flock book. It contains all the information you would normally find in a published flock book with easy search functions, and **is the platform which you use to make your online Birth Notifications and Ewe Lamb Registrations, along with keeping your records up to date**

TO ACCESS PedeWeb

Go to the Hampshire Down Website and Click on the link to PedeWeb Hampshire Down Registry. Type in your **flock number** and **password**, if you have mislaid this or would like to change it please email the secretary.

FINDING ANIMALS

The first screen is called Animal Search and allows you to search for any animal in the database.

Type in any box, any part of the information you know and click on 'search for animals' for a full list of animals which match that criteria. **The more information you type into this screen the FEWER animal you will find.** *Less is more on search screens.*

MANAGE YOUR OWN FLOCK

Once again these transactions will be in your shopping basket ready print a remittance slip to send with a cheque made payable to HDSBA, or make payment by online banking.

Every animal MUST have a tick in one of the three boxes before it will allow you to submit. The easiest way to do this is to click on 'tick all animals as alive' then work through the list and change the ones you have sold or are dead, as you go along.

When you are happy with the list click on submit. **It is easier if you do this after registering your births so that you don't mark dams and sires as sold or dead before registering their progeny.**
