**DECORUM EST OPENS ON KINGS ROAD**  
Shortly after our design issue was released, we stumbled upon a new interiors showroom whose elegance and opulence must be seen to believe. The store, Decorum Est, is the new project from Steve Charles and David Abrams and specialises in bespoke surfaces. Not a soft furnishing in sight in this classically-influenced interiors heaven with its almost set-like quality. The showroom invites clients to observe, smell and feel the space, allowing for both customers and their designers to have a physical understanding of their surface products—though we'd recommend taking a peek regardless, just for the sheer beauty of the venue.
