JOB DESCRIPTION – SENIOR CLINICAL PHYSICIAN / CHIEF OF SERVICE

Job Title: Senior Staff Anesthesiologist / Chief of Anesthesia
Reports to: Chief Medical Officer
Location: Kigutu, Burundi

Background

Village Health Works (VHW) is a joint American-Burundian NGO based in Kigutu, Bururi Province whose mission is to provide quality, compassionate health care in a dignified environment while treating the root causes of illness, poverty, violence, and neglect in collaboration with those we serve. VHW’s approach integrates clinical services with education, food security, economic development, environmental protection, music and the arts.

Currently VHW operates a comprehensive health clinic with a 60-bed inpatient hospital, which provides prenatal care, family planning, and performs uncomplicated obstetrical deliveries. These services are administered by our staff of generalist physicians under the supervision of our Medical Director and Chief Medical Officer.

Village Health Works has embarked on an ambitious project to build a state of the art 150-Bed Hospital with 4 operating rooms that will be a foundation for educational, training and research programs. The facility will provide comprehensive medical care focusing on establishing surgical and obstetrical services in the region and developing the capacity to provide specialty clinical services not available in Burundi. Projected clinical opening for this facility is the summer of 2022.

Integral to the success of this project is the high-quality functioning of our Anesthesia Department whose services allow us to provide safe obstetrical and surgical services. At the outset we will focus on providing Emergency Obstetrical Care and Essential and Emergency Surgery to adults and children. Therefore, the candidate must have a high degree of skill and comfort with Obstetrical, Emergency and Pediatric Anesthesia.
