

Event Sponsorship Benefits

learn&
engage&
support
kids with cancer.

September 12 | 6-8 pm
TAKODA Restaurant, Washington, DC

A night with friends, featuring
brews & light bites, a silent
auction & conversation about
childhood cancer advocacy.

The Children's Cause for Cancer Advocacy is a national non-profit organization dedicated to being the voice for children with cancer, survivors and their families. Our imprint is found on major federal laws and policies impacting the development of less toxic treatments, funding for research and care, and the unique needs of survivors. We give survivors and families the resources and tools they need to be effective advocates. But we cannot be their voice without your help, and this event is an opportunity for you to support our cause.
