# RECLAIMED

---

## If these boards could talk...

Originating in Amish Country, from Holmes and surrounding counties these boards have done their share of work. Taken from old barns, houses, sheds, and fences they have kept cattle in, hay dry and provided protection for many families. Brought back to life, they now offer a unique addition to your home. Every piece is different and has it's own story to tell!

### RECLAIMED COLLECTION NOTES

*\*Due to the character and colors of these reclaimed boards, the following pages are only a representation of how they will look.*

*\*All lumber is Kiln Dried to kill all insects that could come from the nature of its use. We then spray a sealer and top coat to preserve its beauty for years to come*

*\*Pieces are a mix of wood species*

*\*Color is random. Although mostly a mix of the following colors: White, Red, Natural Tones (Grays, Browns)*
