APPOINTMENTS

Please phone 6332 4266 for an appointment. We encourage you to ask for your preferred time and doctor. Emergencies will always be given priority and our reception staff will attempt to contact you if there is any unforeseen delay or your GP has been called away.

Standard appointments are 10 minutes. If you think you will need more than 10 minutes, have a list of issues to discuss or have forms which require completion by doctor, please ask for double appointment.

Each appointment is for one person. If you have other family members who require medical care, please make a separate appointment for them.

Please let us know if you or a family member requires an interpreter service and we will organise this for your appointment.

CONTACTING YOUR DOCTOR

Doctors can be contacted during Practice hours. If the doctor is with a patient, reception staff will take a message and get the doctor to return your call at his/her earliest convenience. Please advise if your call is urgent and it will be put through to the doctor or Practice nurse.

GETTING YOUR TEST RESULTS

Please discuss with your doctor when your results are expected at the Practice and how the results will be communicated with you.

HOME VISITS

Home visits are available for patients whose condition prevents them attending the Practice. If you would like a home visit, please discuss this with reception and they will speak with a doctor.

Our Doctor will identify key components like where a person is travelling to; their current health and then set a preventative health plan for the traveller. This will include travel vaccines, travel/medical kits and other sundry products.

EDUCATION

The Practice is committed to continuing education for current and future doctors. We regularly train students (future Doctors) who can attend consultations. Our doctors are very sensitive to the needs of patients and will ask the student to leave the room at any point during your consultation if you are uncomfortable
