CONNECTION IS PREVENTION

Community Discussion: Engaging Families at Secondary Schools

Engaging Parents & Caregivers at Secondary Schools

Do parents get mixed messages about connecting with the school once they have teens?

For example: Experts (& teens) say: teens need freedom and space

...And at the same time...

Experts (& schools) say: youth whose parents are connected to school make better decisions in their lives

Both are true...

So how can PACs support parent engagement at the secondary level?

Come to a relaxed and interactive session with SACY parent engagement facilitators to discuss innovative ways to engage folks with their schools. We'll explore what's working across the district to build parent-school engagement and how that contributes to social, emotional and academic success of students at secondary school.
